We are indebted to Eric Tortella for his assistance with the research of this wristwatch.

The present watch is one of very few examples of a wristwatch fitted with a cloisonné enamel dial from IWC.

Cloisonné enamel dials are always individual artisan creations. With their unfading brightness and rich lustre, the watches with such dials are amongst the most desirable of all brands. The main supplier of cloisonné enamel dials was the celebrated firm of Stern Frères. Each Stern Frères dial was individually stamped on the reverse with a number code with, the first digits being the brand code. For the present dial numbered 61*2872, 61 is the code for IWC and 2872 denotes this particular design.

For an IWC wristwatch from the 1950s with a similar cloisonné enamel dial see: Ore d'Oro 2, J. Barracca, G. Negretti, F. Nencini, p. 161

Stern Frères

Founded in 1868, Stern Frères specialised in the production of highest quality dials including dials decorated with cloisonné enamel scenes which were supplied to eminent watch manufacturers including Rolex, Omega, IWC, Patek Philippe, Vacheron Constantin. The production of these solid gold dials was extremely costly as they had to be individually made by a skilled craftsman and not on a production line. The artist created the outline of the desired motif by arranging thin gold wires on a dial. These partitions, called "cloisonne" in French, were filled with small quantities of enamel powder in the desired colour. The dial was then fired in an oven at around 900 degrees Celsius causing the powder to melt. Finally it was hand-polished until a perfectly flat surface was obtained. Hand-made by celebrated enamel artists, these dials can be regarded as unique works of art in their own right.

This hi-tech watch from independent manufacturer De Bethune is both striking and unique in design. Renowned for its technical and creative skill in innovation, the young watchmaking brand has managed to integrate both a large 8-day power reserve and a 3D revolving moon (at 6 o'clock) into a slim 18k white gold case. The subtle sheen of the finished dial is artfully contrasted with the blue hour markers and attractive blued hands, resulting in a timepiece that is sure to draw the eye at any occasion.

The Royal Blue gets its name from the shining, transparent blue-coloured sapphire used as the mainplate. The so-called 'Mystery Tourbillon' displays amazingly in the middle of the dial without any physical support, resulting in a seemingly floating effect. Diamonds and sapphires are carefully set in the inner ring of the watch, and the jewels of the movement are also coloured in blue, attractively matching the tone of the watch. This watch perfectly showcases both Ulysse Nardin's creative skill in gem-setting and its ability to create complicated watches.

Unveiled at SIHH 2015 in a limited edition of 100 pieces, Cartier's creation is an entirely novel and innovative take on the traditional design of a tourbillon. The present example, numbered '81/100', features a pared down, skeletonised movement, held in place by the Roman numerals 12 and 6. Setting apart this watch as being truly unique is the so-called 'Astrotourbillon', which revolves around the entire movement instead of rotating on its own axis (as is characteristic of a normal tourbillon). This aesthetic delight is a feature that also serves the functional purpose of marking the seconds, and is made possible in the first place by the Astrotourbillon's cage, which is significantly more elongated than the norm. The modern and bold design of this watch, coupled with its usage of unusual materials (the Astrotourbillon itself is made of carbon crystal) makes this watch a truly interesting addition to any collection.

With its sapphire mainplate and bridges, the watch's movement appears to be translucent, giving the wearer a detailed look at its inner mechanics. Of note within this movement is the 'flying' tourbillon, which, due to its lack of an upper bridge, appears to float in the middle of the dial. The contrast between the differently cut and coloured diamonds gives the minimalistic watch an undeniably luxurious edge that is sure to catch the eye at any occasion.

Credor，非常精細及罕有，18k紅金鏤空自鳴腕錶，配動力儲存，型號GBLQ998，約2007年製

The rise of Japanese fine watchmaking is no secret to the serious collectors of the world, from Grand Seiko gaining credible market share and recognition, to the likes of Hajime Asaoka operating as an independent watchmaker from his apartment in Tokyo.

Looking back, perhaps the catalyst for these gains over the past decade arrived at Baselworld in 2006. Created by the now legendary Micro Artist Studio of Seiko Epson, the Credor Sonnerie represented the first chiming watch from Seiko, and laid the foundations for the Eichi I arriving in 2008. The watches produced in the Shinshu Studio embody many of the characteristics that define the very best watches from any manufacturer, not surprising when one finds out that Philippe Dufour is known to have advised the team in Negano Prefecture.

One of the differentiating factors of the watches from Credor is the Spring Drive electro-mechanical escapement, that combines many of the best parts of a standard mechanical movement with a quartz oscillator to ensure absolute accuracy. These sorts of Japanese ideals, combining the greatest artisan skills with the absolute evolution that technology will allow, are evident everywhere in the watch offered here, from the noiseless sonnerie works, (allowing the chiming to be enjoy to its fullest,) to the fact that the ringing can be silenced by simply holding down the bottom while it is activating, avoiding embarrassment in a quiet environment.

Even if you were to forget, there is no doubt that the ringing would be enjoyed by all those in earshot: with a pace modelled after the traditional bells of the Japanese temple, the cadence is extremely leisurely versus that of other repeating watches, giving a calming sensation that immediately puts the user in a more relaxed state. This sentiment is carried over by the fact that the sonnerie activates every three hours (from 12:00) with three simple strikes when the selector is in the "original" position, or in the more standard version when in the "sonnerie" position, chiming the number of hours, on the hour.

In apparently unworn condition and complete with all accessories, the case number of 770001, appears to indicate that this watch might be the premier production model of this historically important watch, representing an extremely rare opportunity to acquire what could be considered as a defining moment in modern Japanese haute horlogerie.

The Midnight Planetarium – The Solar System on your Wrist

Launched by Van Cleef & Arpels in 2014 to an exclusive design by watchmaking maestro Christiaan van der Klaauw, the Midnight Planetarium was two and a half years in development.

Part of the Poetic Complications Collection, it is not only the height of luxury and stunning in appearance but highly complicated. The ingenious movement displays in miniature the orbit of each planet visible from Earth and the Moon in real time as it rotates around the Sun, so that the Earth makes one rotation every 365 days, the Moon every 29.5 days, Venus in 224 days, Mercury 88 days, Mars 687 days, Jupiter 11.86 years and Saturn 29.4 years.

The impressive 44 mm. pink gold case with pink gold bezel houses an aventurine dial composed of concentric rings which perfectly captures the effect of a rich deep blue star-studded universe, with pink gold sun and shooting star to indicate the time, spherical gemstone planets: serpentine Mercury, chloromelanite Venus, turquoise Earth, red jasper Mars, blue agate Jupiter and sugilite Saturn. A “lucky star” feature allows the wearer to record their personal lucky day on the starry dial, on that date the Earth moves into the position directly below the engraved star on the sapphire crystal. A key to identify the planets is provided on the border of the movement and can be viewed through the glazed display back.

This extraordinary Midnight Planetarium is a sublime example of aesthetics and mechanical genius working in perfect harmony, easy to use and at the same time exceptionally elegant, it represents a true prize for the connoisseur of contemporary watchmaking masterworks.

Piaget celebrated the year of Dragon in 2012 by prodvery a special series named "Dragon and Phoenix". The watches were produced with a cloisonné enamel dial of a dragon or, like the present watch, with a cloisonné enamel dial of a phoenix.

Each watch was limited to 38 examples - the numbers 3 and 8 are auspicious to many Chinese-speakers as, when spoken together, they phonetically sound like the words "to prosper for life" and with the addition of the number 2 before that, they further like the phrase "to prosper for life easily".

Enamel has always occupied a special place in the hearts of collectors, and enameled pieces by Patek Philippe never fail to impress with their superb quality and vibrant colours. The present timepiece is a celebration of this century-old art: the cloisonné enamel is the one and only protagonist of the dial, which is stark to the extreme, without even the numerals. A close inspection of this work of art highlights the supreme mastery of the skill achieved by Patek Philippe's enamellers.

Reference 3700, the "Jumbo" Nautilus was produced from 1976 until around 1998, powered by the best ultra-flat automatic movement at the time: calibre 28-255 C, which is based on a LeCoultre ébauche. The cases were manufactured by Favre-Perret and they existed in stainless steel, steel and gold, 18k yellow, white gold and platinum with dials hand made by the highly skilled Stern Frères creators. The signature on the bottom of the dial is "O SWISS O," meaning the markers are gold.

At the time it was launched, the Nautilus was advertised as the most expensive steel watch on the market. The watch was designed by Gerald Genta, as a competitor to Genta's already successful Audemars Piguet Royal Oak model. The watch was advertised as "possibly the most exclusive steel watch you can own".

For an 18k gold and stainless steel reference 3700, please see Lot 2312 in this sale.

Audemars Piguet is one of the oldest watch manufacturers still under ownership by the founding family. This dedication to tradition ensures the quality of craftsmanship and the attention to detail of the timepieces produced. To commemorate the 125th anniversary of the company's founding, the Jules Audemars Dynamograph was created as part of the Classic Collection. An example of technical finesse, this model brings the minute repeating complication to another level, providing a real-time indication of the mainspring's winding stress, hence allowing optimum performance of the strike modes. Other unique features include a 'Silence' setting on the crown which mutes the chiming of the Sonnerie as well as a power-reserve indicator for the mainspring so that the repeater complication is not set off when there is insufficient power. With its 400 hand-finished parts and resonating three-gong carillon chime, the Jules Audemars Dynamograph is a charming and fitting timepiece to epitomise the 125 years of Audemars Piguet's technical and aesthetic creativity.

Audemars Piguet introduced the Tradition of Excellence collection in 2000 to pay tribute to the craftsmanship of the original founders of Audemars Piguet, masters in the art of producing complicated timepieces. The five watches from the Tradition of Excellence collection are each limited to 20 examples and are now amongst the most respected and desirable Audemars Piguet watches of the modern era.

Tradition of Excellence No. 5, such as the present example, provides the brand with an opportunity to demonstrate its formidable capacity for innovation. Fitted with a 950 platinum oval shaped case, the outstanding timepiece features a linear reading perpetual calendar with a deadbeat seconds hand and power reserve indicator. The present lot comes with a full set and is in extremely well preserved condition. Together with the revolutionary new escapement developed by Audemars Piguet, this extraordinary watch is destined to be one of most iconic piece made by the renowned Swiss manufacturer.

This Audemars Piguet watch was one of the most anticipated releases at Baselworld when it was first introduced in 2007. The present Maserati Millenary Tourbillon is a rare find and will most certainly gather the interest of Audemars Piguet and Maserati collectors alike.

The present example incorporates a tourbillon weighing only 0.45 grams, and a set of double barrels offering a 10 day power reserve. Interestingly, Audemars Piguet developed barrels manufactured from a combination of unique alloys including white gold and palladium to reduce any loss of energy caused by friction. The main plate of the movement is crafted from carbon fibre and the bridges from aluminium.

The most significant trait of this watch, making it extremely attractive and sought after, is its enthralling red coral dial. Due to the natural variation in rock formation, each example fitted with a coral dial is unique, with each exhibiting a different veined texture to the last. This feature is so important that Rolex has even removed all numerals from the dial to draw attention to it, resulting in a clean (yet far from dull) design.

Further enhancing the appeal of this piece is the French calendar, a welcome addition to an already remarkable watch. The discs on the present example have acquired a deep ivory hue over time, wonderfully harmonising with the gold case of the timepiece.

Even though Rolex has been producing Arabic dials from as early as the 1950s (to develop the needs of the Middle Eastern market), this was usually only done by special request and not by mainstream production. Indeed, it was not until 2016 that Rolex finally decided to introduce the Day-Date 40 Arabic Edition. Whilst not limited in production, this special model is only supplied to select dealers in the Middle East and is therefore extremely rare. Well recognised by its 40 mm. diameter, the very exclusive ice blue coloured dial is made specially for platinum watches, and is made further limited by its featuring of an Arabic calendar and Arabic numerals. The present example, representing a true mixture of modern charm and vintage aesthetic, comes wcomplete and is in extremely well preserved condition.

We are very pleased to present this beautiful timepiece, the first ever example to be offered at Christie's.

Rolex has already proven a pioneer in mixing exclusivity with sporty appeal: in the 1980s they released the bejewelled manual Daytonas references 6269 and 6270, and over the 1990s some trials were made with the Zenith Daytonas as well.

The Daytona chronograph 116599 series impresses with the quality of the gem-setting to the case and dial. With diamond studded bezel and pavé-set diamond dial, the wristwatch displays the talent and the level of skills Rolex has in creating such technically challenging and lavishly-set timepieces.

The present 116599TBR is among the rarest of configurations for the reference with a square-cut diamond-set bezel. Offered in “NOS” new old stock condition with its Rolex International Warranty card and box, it is part of the very last batch of reference 116599TBR before it was discontinued.

For an example of a reference 116599RBR, please see Lot 2352 in this sale.

Rolex is a watch manufacturer that can alternate seamlessly from classic to avant-garde designs, something that has been demonstrated numerous times over the decades. Notable examples of avant-garde designs that spring to mind include the gold reference 6262 in the 1960s and early 1970s, the diamond-set references 6269 and 6270 in the 1980s, and lastly, the 'beach' Daytonas at the beginning of the new millennium. This tradition of innovation lives on in the second decade of this century, as demonstrated by the present watch, which, whilst maintaining the style of a normal Daytona, is anything but. The bezel is set with baguette-cut sapphires in the colours of the rainbow, and the lugs and crown guard are set with brilliantly cut diamonds, resulting in a sublime outline that covers the large masterpiece in a dazzling, multi-coloured aura. This spirit of innovation further continues on the dial, which has a colour scheme befitting such a daring masterpiece. Diamond-set numerals shine on the pitch black dial, combining with the subtly shimmering subdials to create a fusion of glittering lights.

Reference 116649 fuses one of the world's most iconic and quintessential tool watches (worn by the likes of James Bond) with the luxurious and delicate art of gem-setting, representing a synthesis of both form and function. White gold, diamonds and emeralds interlace, interacting to produce an aesthetic affect that is visually arresting, attractive and striking to the eye – this watch is certainly one that will not go unnoticed. The timepiece is bezel-set with 12 diamonds and 36 emeralds, surrounding a pavé dial which is itself also set with diamonds and emeralds. Today's example is a rare opportunity for the ultimate Rolex fan to own a truly remarkable piece.

Consigned by an important private collector, this exquisite Haute Joaillerie Panthere timepiece is offered complete with the original Cartier fitted box.

Cartier's Panthere jewels and watches have achieved cult status as perhaps the most instantly recognizable symbols of the Cartier brand. The present watch is an exceptional ambassador for the Panthere range, made of platinum set with white diamonds and shaped spots of black onyx in imitation of the panther's fur coat, it embodies the powerful essence of Cartier's big cat jewels famed for their femininity and elegance.

The Cartier Panthere pieces were originally inspired by a painting entitled "Dame à la Panthere" by the French artist George Barbier commissioned by Louis Cartier in 1914. The picture depicts a lady draped in jewels and a panther with a diamond collar at her feet. That same year, Cartier released its first jewel featuring the panther. In the next few decades under legendary director of Haute Joaillerie, Jeanne Toussaint, the big cat jewels and watches became one of the company's most recognizable and glamourous products, adorning the world's most discerning women including most famously the Duchess of Windsor.

Over the years, these exotic creations have inspired many of the brand's advertising campaigns. Today, the Panthere range continues to evolve and update as one of the most desirable and coveted of all Cartier's designs.

積家，罕有及雅致，18k白金鑲長方形鑽石女裝鏈帶腕錶，“101”，型號280.3.70，約2000年製

This extremely elegant example of Jaeger-LeCoultre's famous "calibre 101" is modelled as a continuous line bracelet, each link set with a single white diamond and the tiny watch dial discreetly viewed in a window of equal shape and size.

The calibre 101 movement by Jaeger-LeCoultre was introduced in 1929 and at the time was celebrated as the smallest watch movement ever made, measuring just 14 x 4.8 x 3.4 mm. The idea of the Duoplan movement itself was devised by Paris watchmaker Henri Rodanet with an ingenious wheel train layout that allows the movement to retain excellent timekeeping properties whilst at the same time being made in very small sizes for lady's watches.

The calibre 101 became world-famous in 1953 when it was realized that Queen Elizabeth II had worn a diamond-set calibre 101 at her coronation that year.

According to the Archives at Jaeger-leCoultre, the present watch was manufactured in 2000 and set with 43 diamonds weighing a total of approximately 12.60 carats.

Inspired by an early watch made for Napoleon Bonaparte's sister, Caroline (the Queen of Naples), the Reine de Naples is an exemplary symbol of feminine elegance, well representing Breguet's expertise in both watchmaking and jewellery. The present example is made of 18 carat white gold, and has a bezel and caseband set with 76 baguette-cut diamonds, of approximately 6.06 carats. The chapter ring of the watch is also paved with 42 baguette-cut diamonds, of approximately 2.77 carats. Other notable features of the watch, such as the mother-of-pearl markers, pearl cut diamond at 6 o'clock (approximately 0.09 carats) and famed blued Breguet hands truly make this watch a stunning and unique addition to any collection.

寶璣，精細及非常吸引，18k白金鑲長方形鑽石半鏤空腕錶，配計時功能，“Classique”，型號5238，約2008年製

The present watch belongs to the Breguet Classique family, displaying great characteristics of the brand's perception of artistry, traditional values, and more importantly, fine watchmaking.

While the majority of Breguet Classiques are offered in the more traditional and austere combination of yellow gold case and silvered engraved dial, the reference 5238 Classique Chronograph offered here is considerable more decadent.

With a combination of a beautifully engraved and skeletonised movement and oversized white gold case set with an incredible 96 baguette cut diamonds totalling approximately 13 carats across the bezel, band and lugs, this is a watch that makes a statement like no other.

The calibre 533 SQ shows not only Breguet's well-known ability for fine engraving commonly seen in their dials, but also how a movement can be skeletonised to accentuate the details and allow the wearer to gain a clearer understanding of how a mechanical watch functions: from the compensated balance wheel with swan neck regulator on an engraved balance cock, to the open mainspring barrel and column wheel chronograph. It is highly recommended for prospective bidders to spend some time with a loupe and take in all the breathtaking details of this magnificent piece.

With a 44.2 mm. case size, jumping numerals display and a visible chiming mechanism, this watch is truly modern and unique – representing not only a first in horology but also a first for Lange, whose style usually consists of classy, understated dress watches. As is characteristic of Lange, every aspect of the creation of the watch is executed to a high degree of precision – the jumping numerals mechanism always delivers an exact reading of time, advancing instantaneously rather than slowly and gradually. This is achieved using a beautifully hand-finished remontoire, visible through the sapphire case back, which enables a steady flow of power to the balance. Furthermore, a switch at 4 o'clock alternatively activates or deactivates the chiming mechanism (as seen by the two small symmetrical hammers), which when on, chimes every quarter hour and hour with different, crisp and clear sounds.

The revolutionary Lange 31 is the first mechanical wristwatch with a power reserve of 31 days. The exceptionally high power reserve can assure high rate stability and consistent rate accuracy for an entire month. The watch features the same key winding system as a historic pocket watch and can be wound with a stainless steel winding key through an aperture in the case back thus generating much more torque than would be possible with a crown. In order to prevent over tightening of the springs, this complex movement features a built-in torque limiting mechanism and a backstop ratchet that slows down the key when it is turned anti-clockwise.

The Lange 31 attests to the fine craftsmanship, technical excellence as well as aesthetic qualities at A. Lange & Söhne, making it a highly sought-after collector's watch.

Produced in 2011-2012 and limited to only 15 pieces, the Richard Lange Tourbillon “Pour le Mérite” represents a culmination of what connoisseurs of fine watches associate with the legendary “A. Lange & Söhne” heritage.

This highly impressive and supremely elegant 41.9 mm. diameter watch is made of Lange's specially developed “honey gold”, an alloy that includes silicon, physically harder and paler than standard 18k gold. The hand-engraved honey gold pivoting segment regulator-style dial takes its inspiration from the dials used for high-precision observatory clocks whereby the hours, minutes and seconds are read from individual chapter rings.

With fusée and chain transmission and a one-minute tourbillon, the L072.1 calibre movement incorporates therefore two of the most historic complications proven to contribute to the greater accuracy of a mechanical watch. Furthermore, the model is fitted with Lange's patented stop-seconds mechanism which enables the user to stop and restart the entire movement with an accuracy of one-second.

The glazed display back allows the beauty and exceptional finish of the movement to be fully appreciated. To this end, the movement plate has been partially skeletonised so that the fusée and chain system - rarely implemented in wristwatches, can clearly be seen unwinding from the mainspring barrel onto the fusée while the watch is being wound.

The fusée and chain mechanism is one of the most effective methods of maintaining the accuracy of a watch by providing a constant amount of power to the escapement over the period that the mainspring unwinds from fully wound to unwound.

It is difficult to find a watch more technically and functionally brilliant than the Datograph Perpetual Tourbillon. Unveiled in SIHH 2015 to the great awe and shock of the audience, the present example was created by Lange to showcase their prowess and leading position in the field of watchmaking. So complicated and exclusive is this watch that only 100 were made (the present example being numbered 005). Essentially speaking, this watch manages to combine a jumping displays perpetual calendar, flyback chronograph, tourbillon, moon phases and finally a power reserve indicator (near the end of the tachymeter scale), all housed into a beautifully finished movement and visible through the sapphire case back.

Beautiful as the watch's dial side is, it is the movement itself that is truly impressive and characteristic of Lange's technical perfectionism and attention to detail. Not only is the movement simply aesthetically astounding (with a hand engraved balance cock and an incredible level of hand-finishing), but it is also designed with function in mind. Two subtle yet complicated mechanisms underlie just how intricate Calibre L952.2. is. Firstly, pulling the crown out to adjust the time instantly stops the movement, halting the tourbillon, allowing the time to be displayed with an accuracy of one-fifth of a second. This function, first introduced in 2008 by Lange, has been made possible by the modification of the balance, which now oscillates at a slightly lower frequency.

Secondly, and perhaps most impressively, is the watch's unique ability to advance every single display on the perpetual calendar once (moon phase, date, day) by one single compression of the pusher at 10 o'clock. To prevent accidentally pressing the pusher and needlessly activating the instantaneous display adjustment, Lange has designed the watch in such a way that the function is locked unless the crown is pulled out. This not only protects the movement itself but also ensures that the function is only used when the watch truly needs correction – i.e. when the power reserve has depleted (an idiosyncratic yet ultimately incredibly thoughtful and important feature).

As befitting a watch of such a high pedigree, only precious metals have been used: the hands are rhodium-plated and solid gold and the case is made of platinum. The present example is a must-have for the ultimate collector, and for those who are interested in seeing how far the innovative and technical boundaries of horology can be pushed.

On 7 December 2005, A. Lange & Söhne commemorated the 15th anniversary of its reinstated manufacture with an imitable expression of micromechanical virtuosity and watchmaking ingenuity. Testing the boundaries of physics and mechanical possiblities, for the very first time in the history of horology, the manufacture united three marvels from the realm of grand complications: a fusée-and-chain transmission, a tourbillon, and a rattrapante chronograph mechanism in a single wristwatch. This very special opus is the Tourbograph "Pour le Mérite".

Echoing the Tourbillon "Pour le Mérite" that was presented in 1994, the Tourbograph once again unites the two most complex mechanisms dedicated to enhancing long-term rate accuracy, but Lange goes the further mile by integrating a timekeeping mechanism that allows lap times to be measured, as suggested by the name Tourbograph.

The Tourbograph is the second Lange creation with the attribute "Pour le Mérite", an accolade for the superb horological skills of Lange's master watchmakers. The name alludes to the most prestigious order of merit inspired by Alexander von Humboldt, sponsored by King Frederick William IV in 1842, for outstanding, predominantly scientific accomplishments.

The hand-crafted manually wound L903.0 calibre is composed of no less than 1,000 individual components. The tourbillon alone consists of 84 parts yet weighs a scant 0.5 grams. Just the finishing process of the bridge requires two days to complete.

The Tourbograph was crafted in a limited edition of 101 examples out of which 51 were made in platinum such as the present lot and is no longer in production.

Girard-Perregaux's first tourbillon movement featuring three gold bridges was patented in 1884 by one of the firm's founders, Constant Girard; the unique example in the history of watchmaking represents still today a perfect combination of aesthetical, technical and symbolical aspects. At the Universal Exhibition in Paris in 1889, his tourbillon with three gold bridges was awarded a gold medal and then declared out of competition, as it was beyond match.

SIGNED LAURENT FERRIER, GENEVE, TOURBILLON DOUBLE SPIRAL, GALET CLASSIC TOURBILLON PIECE UNIQUE MODEL, REF. LCF003-G, MOVEMENT NO. 73, CASE NO. BTE003-005G, CIRCA 2013

Movement: Cal. FBN 916.01, manual, 23 jewels, signed
Dial: Black enamel, signed
Case: Glazed display snap on back, 40 mm. diam., signed
With: 18k white gold Laurent Ferrier deployant clasp with additional 18k white gold Laurent Ferrier buckle, Laurent Ferrier Certicat d'Origine et Garantie dated 20 January 2013, additional black crocodile strap, loupe, cleaning cloth, travel case, product literature, fitted presentation box and outer packaging

HK$800,000-1,600,000 *US$110,000-210,000*

Laurent Ferrier，獨一無二及極精細，18k白金雙游絲陀飛輪腕錶，配寶璣數字及黑色琺瑯錶盤，“Galet Classic Tourbillon Piece Unique”，型號LCF003-G，約2013年製

With unique black enamel Grand Feu dial made upon the special request of the present owner, this Laurent Ferrier tourbillon wristwatch, housed in a beautifully shaped curving solid 18k white gold Galet, or "pebble" case is the last word in understated luxury.

In contrast to the Laurent Ferrier regular production series offered with either a white enamel Grand Feu enamel dial or a black onyx dial, the present watch is unique in having a black enamel Grand Feu dial. Furthermore, this special request black enamel dial, discreetly inscribed "Tourbillon Double Spiral", is confirmed by the Certificate of Origin. Adding a further layer of exclusivity, the unique watches of Laurent Ferrier such as the present watch are recognizable by their beautiful Breguet numerals to distinguish them from the Roman numerals of the regular production series.

This stunning wristwatch is as technically advanced as it is easy to wear. Its discreet appearance belies the fact that the "Tourbillon Double Spiral" is a technical masterpiece, the calibre 916.01 movement is equipped with a one-minute tourbillon certified by the Besançon Observatory. As its name suggests and for improved accuracy, two balance springs are used, mounted at 180 degrees opposite one another in order to eliminate isochronal errors and ensuring the balance remains as centered as possible during each oscillation.

A third-generation watchmaker, Laurent Ferrier has an exceptionally impressive C.V., including a total of four decades at Patek Philippe, ultimately becoming technical and product director, as well as placing third overall at the 1979 Le Mans in a Porsche 935, just behind the team that included Paul Newman.

From the beginning Laurent Ferrier immediately opted for excellence and rapidly earned chronometric precision certification from the Besançon Observatory. The company draws upon the sources of traditional horology while offering a renewed vision of movement construction. It represents a bridge between watchmaking traditions embodied in a wealth of details and finishes, and industrial innovations. This renewal of classical values makes Laurent Ferrier a respected new exponent of the exclusive art of mechanical haute horlogerie - a status duly noted by connoisseurs.

In 2010 Laurent Ferrier was awarded the Geneva Watchmaking Grand Prix in the "Men's Watch" category for its first creation, the Galet Classic.

VACHERON CONSTANTIN. A UNIQUE AND VERY FINE PLATINUM CUSHION-SHAPED AUTOMATIC SINGLE BUTTON SPLIT SECONDS CHRONOGRAPH WRISTWATCH WITH POWER RESERVE AND PULSATION SCALE

SIGNED VACHERON CONSTANTIN, GENEVE, HARMONY ULTRA THIN GRANDE COMPLICATION CHRONOGRAPH MODEL, REF. 5400S/000P-B219, MOVEMENT NO. 5'381'686, CASE NO. 1'344'702, CIRCA 2017

Movement: Cal. 3500, automatic, 47 jewels, signed
Dial: Silvered opaline with blue painted Arabic numerals and blue pulsation scale, signed

With: Platinum Vacheron Constantin deployant clasp, Guarantee Certificate dated 25 Feb 2017, Certificate of Authenticity, additional Vacheron Constantin CROCODILE strap, presentation box and outer packaging

HK$1,200,000-2,000,000 *US$160,000-260,000*

江詩丹頓，獨一無二及非常精細，鉑金枕形自動上弦腕錶，配動力儲存及脈搏刻度，“Harmony”，型號5400S/000P-B219，約2017年製

In 2015, Vacheron Constantin (the oldest continuous watchmaker in the world) celebrated its 260th anniversary by revamping their Harmony collection, after 7 years of development. At the very top of this range (featuring reinvented cushion-shaped watches) was the Ultra Thin Grande Complication Chronograph, a piece that immediately set a record as the world's thinnest self-winding monopusher split seconds chronograph.

However, it is the movement of this watch which truly sets it apart, which despite being incredibly thin is also functionally very complicated, a design that has earned it the prestigious Hallmark of Geneva. Measuring at just 5.2 mm. thick, the calibre contains 459 components, with some springs being as small as 3/100ths of a millimetre. Further increasing the impressiveness of this feat are the various technological advancements housed in the movement, such as a sizeable 51-hours power reserve and a clutch system designed to enable fluid operation of the chronograph seconds hand. On the dial side, the watch is refreshingly crisp and clean, with clear Arabic numerals and a silvered opaline dial (featuring a subtle power reserve indicator at 6 o'clock).

To show off the complexity of this movement (visible through the sapphire case back), the attractive hand-engraved gold rotor is set at the periphery of the calibre, enabling an unobstructed view of the watch's inner mechanics. Vacheron, to prevent overwinding, has also managed to incorporate a locking mechanism within the watch, which automatically stops the rotor from moving once the watch is fully wound.

Further enhancing the present example's appeal however, is its rarity. This watch is a unique piece, made by client specification, which sets it apart from the other examples (which are in any case already limited to only 10 pieces). Instead of a red tachymeter scale, the present example has adopted a blue pulsation scale instead, matching the colour of the numerals and the strap. For the ultimate collector, there is therefore no better opportunity than the present example (accompanied by a hand-signed celebration letter by Vacheron's CEO) to own a truly unique, symbolic and complicated piece from one of the most respected watchmakers in the industry.

In what can only be described as horological overkill, Greubel Forsey has harnessed its entire technical capability in watchmaking to create a watch that is breathtakingly innovative. Indeed, it is hard to find a watch more complicated than the Invention Piece 2, which has a movement consisting of an impressive 594 components, all housed into an unusual and quirky asymmetrical case.

Of immediate note, catching the eye, is the main feature of the piece – two double tourbillons presented top to bottom. Both the tourbillons feature two systems of dual carriages, improving the accuracy of the time measurement exponentially more than other tourbillons. To proudly exhibit this, the Invention Piece 2 displays an 'open heart' architecture, allowing each escapement to be viewed in its entirety. The time itself can be read at 5 o'clock, with hours and minutes being indicated by a red triangle and a rotating display. The seconds indicator is placed at 10 o'clock, adjacent to a power reserve indicator at 11 o'clock. On the case back, as is characteristic of Greubel Forsey's most complicated pieces, there is a hand engraved personal message from the founders, which recounts the story and history behind the piece's invention to the owner.

So complicated and time consuming are these pieces to create that they are incredibly limited in production. This particular edition of pink gold is limited to 11 pieces only, of which the present example is number 2.

The ethos behind Greubel Forsey's Invention Piece 1 is to pay homage to the timepiece that launched Robert Greubel and Stephen Forsey into galactic stardom in 2004: the Double Tourbillon 30°. While the 338-part calibre of the IP1 is based on the DT30, the displays, surfaces, architecture and aesthetics have all been profoundly modified and redeveloped. The exquisitely finished horological masterpiece is a solid validation of the underlying fundamental inventions of Greubel Forsey, with an objective to reinforce the link between mechanism and indication, as well as the relentless pursuit to improve timekeeping precision.

The highly original hour and minute display comprises of two triangular indicators, red for the hours and blue for the minutes, that enable the observer to follow the passing of time on two concentric semi-circles around the exquisitely finished tourbillon cages; the eccentric seconds and power reserve indicator appear to be in "orbit", reminiscent of a miniature solar system.

The unique nature of the IP1 is reinforced by a personalised message engraved in miniature bas-relief on the plate of the case back and will forever accompany the owner of this exceptional timepiece.

The IP1 was produced in a single edition comprising three unique editions of 11 watches each in white gold, pink gold such as the present watch and platinum, a number (1+1) chosen for its symbolic value representing the Robert Greubel and Stephen Forsey partnership.

Introduced in 1986, the Audemars Piguet automatic tourbillon was not only the first series produced automatic wristwatch with a tourbillon function, but is still arguably one of the world's thinnest automatic tourbillon wristwatches ever made with an overall thickness of only 4.8 mm. Perhaps the two most outstanding features that made this possible are a tourbillon cage made of titanium, dramatically reducing the weight and therefore the power required for the escapement, and the incredible innovative solution of mounting some of the jewels for pivots in the case back of the watch. Given the watch's historical importance and the fact that it remains today unbeaten for thinness, this model will always remain a ground-breaking milestone in the chronicles of high horology.

At SIHH 2013, Jaeger-LeCoultre unveiled one of its most technologically advanced masterpieces to great acclaim – the Master Grande Tradition Gyrotourbillon 3 (platinum, and limited to 75 pieces). Three years later, at that very same fair, the Grande Maison further unveiled an even more exclusive edition of this watch, gem-set and limited to 8 pieces. The present example, is the third of these eight pieces and is therefore incredibly prized as an extremely rare example of horology at the pinnacle of innovation.

A 'first' for watch-making, this particular 'grande complication' features an instantaneous digital-display chronograph (at 9 o'clock), as well as a day-night indicator (at 3 o'clock). Further setting the watch apart from all others, however, is the spherical flying gyrotourbillon at 6 o'clock, which lacks an upper bridge and therefore seems to float in space next to the aventurine subdial. The gyrotourbillon consists of two aluminium carriages (through which the blueish-coloured spherical balance spring is visible), respectively rotating 2.5 times a minute.

Aesthetically speaking, the present example is made from white gold, coupled with a silvered dial. Further adding to the luxurious appeal of this watch are roughly 101 diamonds (of about 6 carats in total) inlaid into the bezel, crown, buckle and lugs of the watch. This watch celebrates the 180th anniversary of one of the most well-established watchmakers in the world, and is therefore aptly inspired by its 19th century pocket watches. It is an essential addition for anyone looking to own a piece of the Manufacture's long history.

百達翡麗，罕有及大碼，不銹鋼自動上弦腕錶，配中心秒針，型號5522，約2017年製

In July 2017, Patek Philippe unveiled a 10-day long, public exhibition dedicated to 'The Art of Watchmaking', featuring some of the brand's most important pieces from its history. To accompany and celebrate this event, taking place in New York city, Patek also unveiled a few limited edition models. One of those models was reference 5522A, a time only pilot's watch, of which today's lot is an example.

Although deceptively simple in design, many features make this watch truly remarkable. Although sizeable by Patek's standards (at 42 mm. in diameter), the watch itself is also incredibly thin and subtle, something achieved by its usage of the famed Calibre 324 S (a movement used in various watches such as the iconic reference 5711 Nautilus). This beautiful movement is visible through the glazed display back, upon which is engraved 'Patek Philippe New York 2017', which only serves to emphasize the watch's rarity and provenance. Only 600 pieces of this model were ever created, exclusively for the US market, which made the watch incredibly hard to source at the time.

Aesthetically speaking, the watch has echoes of a vintage charm, thanks to the brown calfskin strap featuring contrast stitching and a 'clevis' style buckle inspired by the belt buckles that pilots used to secure their survival kits. The dial is incredibly readable, clean and uncluttered, with bold 18k white gold numerals and an absence of any complication (such as a date window). Today's lot represents a rare opportunity to own a truly unique watch, one that is versatile enough to be worn on any occasion.

The new size allowed broadening the width of the exterior rotating disc showing the 24 time zones, thus rendering the names of the 24 world cities even more legible.

百達翡麗，精細及非常罕有，18k紅金自動上弦腕錶，配世界時間及掐絲琺瑯錶盤，型號5131，約2016年製

The yellow gold version of reference 5131 was launched in 2008, followed by white gold in 2009 and later pink gold (such as the present example) in 2014. The dial of the present yellow gold example represents the Americas, Europe and Africa, the white gold version shows Europe, Africa, Asia, and Oceania, and finally the dial of the pink gold version shows Asia, Oceania and the Americas.

Reference 5131 is the successor of reference 5130 and shows three notable differences: use of a distinguishable closionné enamel dial, the names of the 24 cities are displayed in Italic type and the signature Patek Philippe and company location Genève are engraved on the bezel. Only two or three enameller artists are able to produce these rare dials and together they can only deliver 30-40 dials of each color every year. In 2012 a special and unique reference 5131 was produced with a view of Lake Geneva, to celebrate the firm's 175th Anniversary. In 2014, limited editions with different dial motifs were launched.

Reference 5131 is equipped with the ultra-thin automatic calibre 240 HU (HU for Heure Universelle, French for World Time). It features an eccentric 22K gold micro-rotor recessed in the back plate.

A modern world time wristwatch, the mechanism dates back to the 1930s when talented Geneva watchmaker Louis Cottier devised it and offered his invention to Patek Philippe. Cottier's ingenuity resulted in the company's now classic references 1415 HU and 2523. In 1959, Patek Philippe obtained a patent for Cottier's device (Swiss Patent No. 340 191). The company further developed the movement, introducing calibre 240 HU in 1999.

Richard Mille，精細及罕有，鎂鋁合金酒桶形鏤空腕錶，配中心秒針，“Rafael Nadal Chronofiable Certified”，型號RM035 AL ALMG，約2012年製

As the sibling of the hugely successful and ground breaking RM027 Rafael Nadal, first introduced in 2011 and followed by RM027-01 in 2013, the RM035 embodied all of the spirit of the more complicated tourbillon in a Chronofiable® certified time only piece.

Nicknamed "Baby Nadal", The case of the RM035 is made of a magnesium-aluminium alloy allowing it to be both light and strong, which is then given a black electro-plasma oxidisation treatment to increase scratch and corrosion resistance. The baseplate, bridges and balance cock of the movement are made of black PVD coated grade 5 titanium, allowing the movement to be very rigid even with its incredible low weight of 4.3 grams to give a total all in weight for the watch of 45.8 grams.

The RM035 is a fine example of how Richard Mille combines cutting edge materials and technologies to produce watches which push the limits of what is believed possible in the world of horology.

RICHARD MILLE RM011 FELIPE MASSA

Although Richard Mille frequently collaborates with various sporting icons, it is indisputable that their partnership with Felipe Massa is the most important one of all, one that truly synthesises and epitomises the brand's ethos of sporty aesthetic and technical excellence.

Felipe Massa is, in Richard Mille's own words, 'the brand's first historic partner', and since 2004, he has started every Grand Prix with an RM watch on his wrist. Since then, the accomplished Brazilian driver has won 11 races, even finishing runner-up in the world championship in 2008.

With its sporty, quirky and modern appearance, every RM is a powerful statement piece, understandable given the level of technological innovation that goes into each watch. It is therefore unsurprising that Felipe Massa has shown such a passion and interest in RM, since racing is at its core a very technical sport, one that requires a high attention to detail and an unyielding search for perfection.

The first watch to carry Felipe Massa's name was the RM 006, which weighed only 43 grams. It featured a previously unseen movement baseplate made of carbon nanofiber, a material whose strength is matched by its incredible lightness. Due to the superior build construction, this watch can withstand a great deal of force, such as the accelerations and vibrations generated around a race track. Indeed, Felipe Massa was wearing an RM 006 when his car crashed into a barrier in 2009, and whilst he almost died due to massive trauma to the head, the watch was completely fine and continued to function.

Since then, there have been many further editions bearing Felipe Massa's name, each with its own unique characteristics, and each being created with the input of the celebrated racer. One notable example is the Grand Prix Brazil edition (please see lot 2435), made to honor Felipe Massa's home country. At 10 o'clock, there is an image of the driver's helmet, a subtle reminder of the racer's importance to the brand.

It is Christie's great privilege to present today's collection – 11 limited edition RM 011s, all numbered the coveted and prestigious '00', each in like new condition complete with warranty and winding box, and all created in collaboration with Felipe Massa. Each and every one of these lots is special in their own right, and they are each as rare as they are technologically advanced – '00' pieces are almost always retained by the manufacturer and are not included in the limited edition run sold to the general public. In auction history, there has arguably never been a better opportunity to own some of the most iconic pieces belonging to a truly trailblazing watch brand that has made an undeniable and powerful impact on the industry.

The pink gold case exudes a rich warmth and is a perfect foil for the skeletonized movement. It is assembled using 20 spline screws made of grade 5 titanium and abrasion resistant stainless steel washers. The 62-jewel movement of the RM 011 is notable for its variable inertia free-sprung balance which is highly resistant to shocks and has four adjustable weights directly on the balance for fine and accurate adjustment which has eliminated the need for an index regulator.

This special pink gold RM 011 is sure to appeal to those who admire the mechanical innovation of the Richard Mille brand and the reassuring feel of a lustrous precious metal case.

Made in a limited edition of 50 pieces in black coated titanium, this RM 011 Felipe Massa Flyback Chronograph is numbered “00”, which is not included in the limited edition run that is usually sold to general public.

Now an undisputed flagship model of the Richard Mille brand, the RM 011 was conceived as the automatic version of its predecessors the RM 004 and RM 008 chronographs. In order to accommodate the new variable geometry rotor, a new larger case was designed. In designing the RM 011, Richard Mille was able to further push the boundaries of possibility in watchmaking.

The design and execution of a Richard Mille RM 011 shows a completely conceptual approach to the movement, case and dial. The production of each lightweight titanium case requires 68 different operations for the three main sections alone. The skeletonized dial of the RM 011 displays the movement components yet remains easily readable, in addition to the hours and minutes is a large date function, a month display between 4 and 5 o’clock and the flyback chronograph.

In 2012, after an absence of five years, Formula 1 racing returned to the United States. To celebrate that exciting occasion Richard Mille launched the present watch, the RM 011 Felipe Massa Flyback Chronograph in carbon – the first RM 011 to have an extremely lightweight case made of carbon nanotube.

The new technologies used to produce state of the art materials for Formula 1 inspired Richard Mille to use some of these same materials in the construction of his watch cases. Many of these compounds had never been used in watchmaking before Richard Mille made use of their exceptional properties particularly concerning strength when combined with lightweightness.

Available from Richard Mille's Beverly Hills boutique in a limited edition of only 30 pieces, the present watch is numbered "00" which is not included in the limited edition run that is usually sold to general public.

What is really interesting about the RM 011 model is that Felipe Massa actually collaborated on its original design. The watch is a flyback chronograph which uses a single push of the button for control of the chronograph function. This type of complication is inspired by sport, races and speed, and designed to allow the wearer to instantly stop, reset or restart a chronograph with a single push. The flyback function can be continuously reset at will by depressing the second pusher located between 4 and 5 o’clock.

歐米茄，極罕有，精細及吸引，不銹鋼鏈帶腕錶，配計時功能，"Speedmaster"，型號2915-2，1958年製

The 1950s and 1960s were a remarkably thriving age for watch design both in terms of quantity and in terms of quality as well: it is during that time that some of the most aesthetically balanced, easily readable, and downright iconic timepieces were originally conceived. The Omega Speedmaster is one of such timeless designs. Launched in 1957, the Speedmaster was first and foremost a driver's watch, joining the other lines of tool watches produced by Omega at the time: the diver's Seamaster 300 (of which the Speedmaster is somewhat of a descendant, sharing many similarities in the case design) and the engineer's Railmaster.

The reference 2915 featured a number of special elements later altered within the Speedmaster line. The reference 2915-1, 2915-2, and early examples of the 2915-3 included a unique hour and minute hand shared across the early examples of the Seamaster reference 2913 and Railmaster reference 2914 lines: an hour hand with a large luminous triangle at the end and long triangular minute hand, commonly referred to as 'broad arrow' hands. In many instances, the luminous material fell out of the hour hand, perhaps due to the larger surface area of the luminous material making it more prone to falling out during shocks or drops. For later examples of the reference 2915-3, OMEGA changed these hands to dauphine (also referred to as Alpha hands), or thin triangular hands, before switching to the straight baton hands introduced in the 1960s and still used in the Speedmaster Professional today.

The present 2915-2 was produced in 1958 and delivered to Taiwan according to the Extract of the Archives. The rarity of the timepiece is truly enhanced by the correct "base 1000" bezel, the oval shaped "O" in Omega printed onto the extremely well preserved dial, original broad arrow hands and the 1599xxxx movement which is commonly agreed to be part of the correct range of reference 2915.

百達翡麗，精細及罕有，鉑金自動上弦腕錶，配世界時間，型號5130，約2009年製

Ref. 5130 was launched in 2006 and replaced ref. 5110, in production since 2000. Its classic Calatrava style features a larger diameter of 39.5 mm. as opposed to the 37 mm. of its predecessor. The new size allowed broadening the width of the exterior rotating disc showing the 24 time zones, thus rendering the names of the 24 world cities even more legible.

Much inspired by the celebrated reference 2523, Patek Philippe's World Time watch introduced in the 1950s, the dial is decorated with a new guilloché sunburst pattern, the distinctive hour markers give the watch a dynamic, contemporary look. The ring-shaped hour hand is also reminiscent of the firm's historic World Time watches, symbolizing the globe and reserved exclusively for this type of timepieces.

百達翡麗，精細，18k金腕錶，配計時功能及脈搏計刻度，型號5170，2011年製

Reference 5170 was launched in 2010 and offers a new look compared to its predecessor reference 5070. The tachymetre scale has been replaced by a 15 pulsation scale, found on some earlier chronographs from the vintage era, but also houses the latest calibre 29-535 PS with Patek Philippe's new hallmark of excellence, the Patek Philippe Seal.

In 2009, Patek Philippe created a new quality benchmark for its mechanical timepieces: the Patek Philippe Seal. This new emblem of horological excellence goes beyond any existing standards of the Swiss watch industry. Uniquely, the Patek Philippe Seal applies to the completely assembled watch as delivered to its owner. In conjunction with these standards, the Seal represents a commitment to lifelong servicing and restoration for all timepieces created by the firm since 1839.

The rarest watches of Patek Philippe reference 3970E are without doubt those with a white gold case and black baton dial, of which the present watch is a superb example.

Rarer than even the platinum version with black dial, this watch can be regarded as a key piece of the reference and affords collectors the exceptional opportunity to obtain one of the best stand-out reference 3970Es to be offered at auction to date.

Increasingly focusing the interest of serious collectors, the reference 3970 perpetual calendar chronograph watches are amongst the ultimate trophies of Patek Philippe's complicated wristwatches. Made between 1986 and 2004 in four distinct series, the model is now regarded as one of the last of the great Patek Philippe classics.

Fourth series watches such as the present watch made between 1994 and 2004 are officially known as reference 3970E, the "E" standing for "etanche", French for "waterproof" due to the screw-down case back.

百達翡麗，非常精細及罕有，鉑金腕錶，配萬年曆、追針計時功能、月相、24小時及閏年顯示，型號5004，約2014年製

Reference 5004 is considered a modern classic and derives its features from reference 3970, which itself is based on the legendary reference 2499. However, reference 5004 steps up a gear in terms of complication by boasting the highly complex split seconds function. Reference 5004 is roughly one millimeter larger than reference 3970 and also easily recognizable by its oversized split-seconds pusher in the crown. Production of reference 5004 began in 1994 and is today discontinued. Patek Philippe replaced it with two other split seconds chronograph models, both in platinum cases: the cushion-shaped reference 5951 released in 2010 with in-house calibre CHR 27-525 PS Q and reference 5204, released in March 2012 at the Basel Fair with in-house calibre CHR 29-535 PS Q.

百達翡麗，非常精細及罕有，鉑金腕錶，配追針計時功能及寶璣數字琺瑯錶盤，型號5370，2017年製

Although not a limited edition, Patek Philippe has self-professed that reference 5370P is highly limited in production. The reason behind this is the watch's most unique feature – its black enamel dial, the creation for which is a time-consuming process requiring a high degree of specialisation and skill. After melting in an oven at 850 degrees Celsius, the coating is then allowed to solidify to a glasslike consistency, resulting in an intensely 'backer than black colour'. To accommodate the small feet of the white-gold Breguet numerals, small holes must then be drilled into the dial, a process that requires great care due to the fragile and brittle nature of enamel.

The split-second chronograph's movement (beautifully hand finished and visible through the glazed back) is housed in a 41 mm. platinum case that subtly merges with the lugs and crystal, resulting in a highly sophisticated and elegant watch. With a design reminiscent of the brand's older watches, this is a must-have for the ultimate Patek fan.

百達翡麗，非常精細及罕有，18k白金腕錶，配萬年曆、計時功能、月相、閏年及日夜顯示，型號5270，約2013年製

Introduced at Basel World in 2011, reference 5270 is the most recent addition to the legendary Patek Philippe perpetual calendar chronograph family starting with the reference 1518 from 1941.

With a thinner case and a 1 mm. increase in diameter over its predecessor (ref. 5970) the 5270 wears quite differently from previous Patek Philippe perpetual calendar chronographs. Another contributing factor to this is the new in-house calibre housed inside, which features a day/night indicator as well as dropped subsidiary dials altering the proportions of the dial.

5270G-001 such as the present example is the first generation of 5270 which was eventually discontinued and replaced with 5270G-013 and 5270G-014 which reintroduced the tachymeter scale seen on ref. 5970. The present watch comes with full accessories and is in extremely good condition. It provides a good opportunity for collectors to join the Patek perpetual calendar chronograph family.

Reference 5102 is an astronomical wristwatch that borrows the celestial canopy feature from one of the most complicated wristwatches ever produced by Patek Philippe - reference 5002 Sky Moon Tourbillon. The nocturnal sky of the northern hemisphere rotates to show the apparent angular motion of the stars and moon as well as the progression of the phases of the moon. Hours and minutes are displayed by two pierced white hands. A delicate elliptical contour on the inside of the glass frames the portion of the sky that can be seen from all cities that share the latitude of Geneva.

This model was launched in 2002 in white gold only. It was later replaced with yellow gold and finally with a platinum and pink gold combination such as the present example.

The Quartz Rolex, reference 5100, was introduced in 1970 using the famous Beta 21 quartz movement which was accurate to 5 seconds per month. It was immediately so successful that the initial pilot series production was completely sold out prior to delivery. It was revolutionary for the new case design, much more angular in its shape than the Oyster case. Designed to be made in very limited quantities only, each Rolex Quartz is engraved with the limited edition number, in this instance No. 119 which is early in the series.

Reference 3603 such as the present example was in production from 1973 until 1982 and is together with references 3587 and 3597 amongst the largest rectangular wristwatches ever made by Patek Philippe. Available in either yellow or white gold with Ateliers Réunis cases, the dials were made by Stern Frères from a massive 18k gold plate and were available in either blue, gilt, browned or silvered finishes.

The Beta-21 calibre was developed by a consortium of watch companies, including Patek Philippe, at the Swiss Electronic Research centre or CEH (Centre Electronique Horloger) in Neuchâtel. It was the first quartz movement for wristwatches with analogue display.

One of the most appreciated and well known vintage watches by Patek Philippe, reference 570 was Introduced in 1938 as a larger version of the reference 96 and remained in production until 1972. With a 35.5 mm. diameter, it was quite a large watch for the time, but it is a size that has aged incredibly well and is perfectly proportioned for the modern wrist. This, combined with the minimalist aesthetics and the standard 20 mm. lug width makes the reference 570 adaptable to almost any occasion.

百達翡麗，罕有及精細，18k金計時腕錶，型號1579，1950年製

This second series model of the very rare reference 1579 "spider lugs" chronograph is fitted with a 36 mm. gold case and has deepened to a rich even tone having had only minimal polishing over the past 68 years. Probably cleaned many years ago, the classic second series dial with hard enamel "chemin de fer" scales, applied gold numerals and square indexes has aged naturally giving individual character to the piece. As with most Patek Philippe chronographs of the period, it is fitted with the famous calibre 13" movement finished to the highest standard.

According to research, less than 480 examples of the reference 1579 were produced and perhaps less than 180 are known to survive today. The cases were all made by Wenger, one of the very best case makers in Geneva at the time. Dating from 1950, the present watch is an early example of the second series dial type which only appeared in the Patek Philippe catalogue that same year.

HK$1,000,000-1,500,000 *US$130,000-190,000*

百達翡麗，極罕有及重要，18k金自動上弦鏈帶腕錶，配萬年曆，月相及閏年顯示，型號3450/1，1985年製

When introduced in 1962, reference 3448 was the first wristwatch ever to combine a perpetual calendar and moon phases with automatic winding, representing a revolution in the watch-making world. But for all of its complexity, models of this watch did not usually feature a leap year indicator, something that at the time was still considered a challenging mechanical addition. Indeed, it was not until 1981 (with the introduction of reference 3450) that this became a standard feature.

Whilst the first series of reference 3450 featured a distinctive red dot filling the porthole in the dial between the batons at 3 and 4 o'clock, later versions such as the one offered here today have Roman numerals throughout. A total of 244 examples of reference 3450 were made - the majority were cased in yellow gold, with there being only two white gold examples known to date. Production of both references 3448 and 3450 eventually ceased in 1985 with the introduction of reference 3940.

While a number of examples of reference 3450 have come to market over the years, this one is particularly rare due to the supple and attractive integrated 18k gold bracelet confirmed by both the Certificat d'Origine and Extract from the Archives included with the watch. It is one of five known examples in this configuration, another of which currently resides in the Patek Philippe museum in Geneva. The watch's appeal is further enhanced by its honest condition with an apparently unpolished case retaining all of its original finish and crisp hallmarks, whilst nevertheless exhibiting the signs of a watch that has been worn and enjoyed over the years since it was originally retailed by Carlson Watch Company Limited of Queen's Road Central, Hong Kong on the 7th October 1985.

The present example today was sold by Christie's Hong Kong in 2016. When it was originally consigned, the bracelet of the watch had already been shortened, though the way in which it had been done was imperfect and left much to be desired. Upon purchase, the buyer therefore promptly sent the watch to Geneva to have this flaw corrected, and to also have the watch shortened further to fit his own wrist. The craftsman who was given this delicate and important job was none other than Jean-Pierre Hagmann himself, a celebrated casemaker who decades previously had been in charge of making the original cases for this watch. Hagmann ultimately shortened the bracelet with great skill and technical finesse, not only restoring the watch to an even better condition, but also adding character and history to an already iconic timepiece.

Reference 2526 was the landmark model chosen by Patek Philippe to be given the privilege of housing the first automatic calibre ever made by the company, the famous 12'''-600. This movement, wound by an oscillating 18k gold engine-turned rotor is regarded by many as the most highly finished automatic movement ever made by any manufacturer.

The "twenty five-twenty six" was mostly cased in yellow gold and a smaller number including the present watch, in pink gold which were mostly intended for the South American market. Reference 2526 is always a masterpiece, regardless of the case material, and furthermore it has gained cult status amongst watch collectors for its beautiful cream-coloured enamel dial. The mellow egg-shell tint displayed by the 2526 dials ensures that today the model enjoys considerable and growing popularity amongst collectors of vintage Patek Philippe.

The present watch is granted a further level of desirability being fitted with a pink gold bracelet of the highest quality. The gold bracelets provided for the reference 2526 are always removable, some were in the more traditional brick-link design, others of more fanciful shape and construction. The version used for this watch is certainly the most lavish bracelet type where the central links resemble scallops.

It is furthermore accompanied by the original Certificate and sales receipt.

Other examples of reference 2526 are illustrated in:

The reference 5102 is an astronomical wristwatch that borrows the celestial canopy feature from one of the most complicated wristwatches ever produced by Patek Philippe - reference 5002 Sky Moon Tourbillon. The nocturnal sky of the northern hemisphere rotates to show the apparent angular motion of the stars and moon as well as the progression of the phases of the moon. Hours and minutes are displayed by two pierced white hands. A delicate elliptical contour on the inside of the glass frames the portion of the sky that can be seen from all cities that share the latitude of Geneva.

This model was launched in 2002, first in white gold only, to be later replaced with yellow gold and finally with pink gold and platinum combination - for an example of the platinum and pink gold reference 5102, please see lot 2461 in this sale.

When Patek Philippe launched the new reference 5496 at Baselworld 2011, the watch impressed immediately with its signature combination of perpetual calendar,retrograde date display, silvered dial and 39.5 mm. case size in platinum (inspired by the famous 1930s Calatrava reference 96). In 2014, Patek Philippe revived this elegant reference with a new coloured dial charmingly named 'honey brown' in a platinum case, as can be seen in the present watch. The sun-ray pattern of the dial captures the gilded reflections of the light to transform the dial into gradations of an inviting caramel tone which, in turn, contrasts beautifully with the white gold hands and indexes.

百達翡麗，非常精細及罕有，鉑金長方形腕錶，配陀飛輪及十日動力儲存，型號5101，約2011年製

It takes much more than a cursory glance to realise that reference 5101 is a highly complicated wristwatch. In fact it is the first timepiece that combines two complications which are very difficult to accommodate in the confined space of a rectangular movement: two tandem mainspring barrels with 240 hours power reserve and a tourbillon precision regulator composed of 72 individual parts.

As is characteristic of Patek Philippe, hardly any signs on the outside of the piece reveal the complexity of its inner workings. Understated elegance has always been a hallmark of Patek Philippe but the tourbillon cage is in fact concealed for a very practical reason - the oil used to lubricate the mechanism is sensitive to ultraviolet rays and will decompose when exposed to daylight, thus losing its beneficial tribological properties. Extremely stringent standards are imposed on all Patek Philippe movements and even more so on tourbillon pieces.

百達翡麗，極精細及非常罕有，鉑金自動上弦腕錶，配三問功能及琺瑯錶盤，
型號3979，1994年製

One of the most important wristwatches ever made in series by Patek Philippe, reference 3979 was launched in 1989 to celebrate the house's 150th anniversary. Not only is this watch the first ever automatic minute repeater to be produced by Patek, but it was also discontinued shortly after in 1998, making the watch highly coveted and rare. As a result, finding examples in today's market is always a significant discovery, and it is therefore Christie's great pleasure today to present this lot.

According to research, only 100 examples of this reference were ever produced, with less than a dozen cased in platinum. Each watch was fitted with the ingeniously designed Calibre R 27 PS, which impresses with its small, but incredibly intricate design. Although the case is only 33.4 mm. in diameter, the movement nevertheless manages to contain 342 parts, including a micro-rotor and minute repeating mechanism. This is a horological feat that few manufactures in the industry can achieve, attesting to the level of skill and innovation belonging to the watchmakers at Patek Philippe.

Further enhancing the prestige of this reference is its aesthetic appeal, which does justice to a watch as mechanically advanced as this one. Although understated (with an uncluttered design featuring crisp, clear, black lines) a superb level of craftmanship was necessary to create the dial, which is made out of enamel. So time consuming is the process in handling such a material (which, in any event, is also extremely fragile and brittle) that it is rarely used in wristwatches, instead being conventionally used in pocket watches. Therefore, the very fact that this watch uses such a material for its dial only emphasises the reference's exceptional quality and importance in Patek's history.

The case of reference 3979 is remarkably handsome and well sized. The present watch lis full in its proportions and the hallmarks to the back of the lugs are crisp. With its elegance and quiet sophistication, coupled with its unmatched level of technological innovation, there is perhaps no other watch that better highlights the essence of Patek Philippe.

Reference 1803 was introduced by Rolex in 1961 and was one of the early models of Day-Date. The present watch is fitted with an extremely rare and sought after "SWISS" only dial which is possibly a transitional design during the period when Rolex was switching the luminous material used in its watches from radium to tritium in the early 1960s. Incredibly enough, it is fitted with a Japanese day disc, greatly increasing its rarity.

勞力士，非常罕有及精細，不銹鋼自動上弦鏈帶腕錶，配中心秒針，“Milgauss”，型號6541，約1958年製

In the mid-1950s, the first Milgauss reference 6543 was named from the number thousand and *gauss*, the magnetic field unit. Only ever manufactured in stainless steel, it was created to meet the needs of technicians and scientists who work in potentially risky environments and are subject to magnetic fields.

The main characteristic was its distinctive honeycomb dial, although it was the reference 6541, such as the present watch, which came soon after bearing the signature "thunderbolt" seconds hand. The reference 6541 had a guaranteed resistance to magnetism by the antimagnetic treatment of the mechanism and also by the presence of an additional inside case back made from non-magnetic conductor metal. Furthermore, the Milgauss references 6543 and 6541 include their references numbers stamped on the inside of the case back.

The present 6541 is distinguished by its smooth bezel indicating it was made for the US market and the movement is stamped with the US "ROW" import mark.

The present example is well preserved and comes with a very attractive tropical dial and warm tone luminous material.

It was also notable for having a bezel with minute divisions for the first fifteen minutes and silver triangle as well as a black dial with gilt printing. Gilt printing was used only for early dials (such as the present example) before Rolex started to use white printing from the 1970s onwards.

Reference 2508 is one of the first chronographs produced by Rolex. It was introduced to the market in the mid 1930s and reflects the militaristic climate of this period through its design: the case construction is a no-frills sturdy three-piece design; the chronographic dial presents the typical two subsidiary counters and tachymetre and telemetre scale. The first generation reference 2508, such as the present watch, featured oval chronograph buttons, whereas the second series were fitted with rectangular pushers.

This remarkable chronograph is an incredibly rare model and the present watch is fitted with an extremely rare and sought after black dial, making this 80 year-old timepiece a must-have for the true Rolex collector.

勞力士，非常罕有及吸引，18k金自動上弦腕錶，配日、月、星期三曆及月相顯示，型號6062，約1953年製

Rolex is of course most well know for their sports models such as the Submariner and Daytona, so it is easy to forget that during the middle of the 20th century they were producing complicated watches that could go toe-to-toe with some of the most prestigious manufactures of the period.

Equipped with a triple calendar module displaying the day, date, month and phases of the moon, the range consisted of the reference 8171 "padellone", and the reference 6062. While the 8171 may wear with a more modern size today, it is the 6062, introduced at Baselworld in 1950, that is closest to the DNA of Rolex, equipped with the same Oyster case used on models such as the Explorer which was being used in the great mountaineering expeditions during the same period that the 6062 was being made.

The version fitted with a dial featuring star-shaped hour markers, nicknamed "Stelline" by Italian collectors, is perhaps the most coveted standard production variation, but those with pyramid-shaped markets like the example offered here, can actually be considered rarer, given that the number of pieces that have come to market in this configuration are actually fewer.

Many examples of the 6062 that are offered either feature service replacement dials, or have been heavily refinished, losing much of the charm of the original watch. Fortunately the watch offered here has not suffered either of these fates, still retaining its original dial that is devoid of restoration, and showing all of its honest charm that comes with decades of aging.

Although the case number is partially illegible, it would appear that this watch comes from the last batch of 6062s produced in 1953, of which a selection of others have appeared at auction also fitted with pyramid dials. Coming from a distinguished private collector, this watch represents a fine, and wearable example of a milestone reference for Rolex.

This remarkable timepiece is an example of the very first production of automatic Daytonas. These rare pieces can arguably be considered as game-changers in the market of the sports watch, as had the first manually wound Daytonas also been considered 20 years ago.

With an oversized 39 mm. case, destined to become 40 mm. one decade later, the new Daytonas were precursors to the "large watch" fashion trend that would hit the market in a few years time. Furthermore, the present watch is adorned by the attractive black dial, with the correct "floating" Cosmograph designation - also known as staccato dial: that is, the gap between the fourth and fifth line is wider than the gaps between the other lines, as if the word Cosmograph was floating away from the rest.

In 1988, Rolex introduced their first ever automatic chronograph wristwatch as the 16500 series fitted with Calibre 4030. An early example of this series, the reference 16528, features a very attractive "Four Line" dial with an inverted six to the hour subsidiary dial on the chronograph and was referred to as the MK 2 dial. Further distinguished by its early MK 1 bezel, the present watch was calibrated for 200 instead of 400 units per hour.

勞力士，非常精細，不銹鋼自動上弦鏈帶腕錶，配計時功能及熱帶棕色刻度圈，“宇宙計型迪通拿”，型號16520，約1994年製

Legendary model, the reference 16520, was the first chronograph of the Rolex manufacture to be fitted with an automatic movement derived from a Zenith ébauche. Built with a larger case than its predecessors and a sapphire-crystal glass, the timepiece encountered great success and throughout the years has become an icon amongst Rolex collectors.

Of particular interest, the present chronograph features tropical brown subsidiary registers where the original white chapter rings have reacted to sunlight and other environmental factors and have turned into shades of brown. These dials are so-called "tropical" dials and are sought-after by collectors.

The reference 6239, introduced in 1963, was the first Rolex chronograph to carry the legendary Daytona name, but while the name is now embedded in the mind of all serious watch enthusiasts, it did not appear on all early models. Different variations of printing emerged in the coming years with several fonts and sizes of "Daytona". Some of them were in small print or in a floating position, or in a "jumbo" print such as the present example. The black dial of this example is well preserved with original aged, warm tone luminous material and an early, slim and straight small seconds hand.

勞力士，精細，非常罕有及非常吸引，不銹鋼鏈帶腕錶，配計時功能及保羅紐曼錶盤，“宇宙計型迪通拿保羅紐曼”，型號6239，約1969年製

The first model of the celebrated "Daytona" series, reference 6239 succeeded reference 6238 and could be found in sales catalogues in Europe from 1964 onwards. Available in stainless steel, 14k and 18k gold, it was the firm's first chronograph with tachometer scale engraved on the bezel and with subsidiary dials printed in a different colour than the main dial for better readability. The so-called Paul Newman dials soon became available for the reference 6239, in either two-coloured white/cream and black, or three-coloured, such as the present watch, and with the addition of the red seconds scales.

The rarity of the present watch is further enhanced not only by the well preserved case and dial but also by the incredibly rare dial variation nicknamed "Musketeer". Normally, the subdials of a Paul Newman dial have a concentric circle pattern. However this dial features a vessel-shaped subdial with the concentric circle only covering two-thirds of the subdial, similar to the dials of non Paul Newman dials from references 6239 and 6241.

END OF SALE

Reference 6263, together with its sister reference with metal bezel 6265, is the final evolution of the manually wound Daytona Cosmograph. It differentiates itself from previous iterations mainly by using the calibre 727, instead of calibres 72B, 722 and 722-1 which were found in earlier references. In production from the late 1960s to around 1987, it coexisted for a few years with reference 6264 (and 6262, with metal bezel), however it was soon discontinued, and its pump pushers were replaced in later iterations with screw down pushers.

Considered one of the most appealing versions of vintage Daytona, the present watch is furthermore graced by the rare and extremely elegant "Panda" Paul Newman dial, distinguished by black subsidiary dials on a white background, and an absolute lack of any other colors: there is no red Daytona designation, and the fifth of a second divisions are white instead of red. The "ROC" printing was only produced in the very early batch of 6263. The word "Oyster" is added between "Rolex" and "Cosmograph" indicating the upgraded water proof ability by introducing screw pushers. The "Panda" Paul Newman reference 6263 is one of the most desirable watches for Rolex collectors.

CONDITIONS OF SALE

These Conditions of Sale and the Important Notices and Explanation of Cataloguing Practice set out the terms on which we offer the **lots** listed in this catalogue for sale. By registering to bid and/or by bidding at auction you agree to these terms, so you should read them carefully before doing so. You will find a glossary at the end explaining the meaning of the words and expressions coloured in **bold**.

Unless we own a **lot** (Λ symbol), Christie's acts as agent for the seller.

A BEFORE THE SALE

1 DESCRIPTION OF LOTS

(a) Certain words used in the catalogue description have special meanings. You can find details of these on the page headed "Important Notices and Explanation of Cataloguing Practice" which forms part of these terms. You can find a key to the Symbols found next to certain catalogue entries under the section of the catalogue called "Symbols Used in this Catalogue".

(b) Our description of any **lot** in the catalogue, any **condition** report and any other statement made by us (whether orally or in writing) about any **lot**, including about its nature or **condition**, artist, period, materials, approximate dimensions or **provenance** are our opinion and not to be relied upon as a statement of fact. We do not carry out in-depth research of the sort carried out by professional historians and scholars. All dimensions and weights are approximate only.

2 OUR RESPONSIBILITY FOR OUR DESCRIPTION OF LOTS

We do not provide any guarantee in relation to the nature of a **lot** apart from our **authenticity warranty** contained in paragraph E2 and to the extent provided in paragraph I below.

3 CONDITION

(a) The **condition** of **lots** sold in our auctions can vary widely due to factors such as age, previous damage, restoration, repair and wear and tear. Their nature means that they will rarely be in perfect **condition**. **Lots** are sold "as is" in the **condition** they are in at the time of the sale, without any representation or warranty or assumption of liability of any kind as to **condition** by Christie's or by the seller.

(b) Any reference to **condition** in a catalogue entry or in a **condition** report will not amount to a full description of **condition**, and images may not show a **lot** clearly. Colours and shades may look different in print or on screen to how they look on physical inspection. **Condition** reports may be available to help you evaluate the **condition** of a **lot**. **Condition** reports are provided free of charge as a convenience to our buyers and are for guidance only. They offer our opinion but they may not refer to all faults, inherent defects, restoration, alteration or adaptation because our staff are not professional restorers or conservators. For that reason they are not an alternative to examining a **lot** in person or taking your own professional advice. It is your responsibility to ensure that you have requested, received and considered any **condition** report.

4 VIEWING LOTS PRE-AUCTION

(a) If you are planning to bid on a **lot,** you should inspect it personally or through a knowledgeable representative before you make a bid to make sure that you accept the description and its **condition**. We recommend you get your own advice from a restorer or other professional adviser.

(b) Pre-auction viewings are open to the public free of charge. Our specialists may be available to answer questions at pre-auction viewings or by appointment.

5 ESTIMATES

Estimates are based on the **condition**, rarity, quality and **provenance** of the **lots** and on prices recently paid at auction for similar property. **Estimates** can change. Neither you, nor anyone else, may rely on any **estimates** as a prediction or guarantee of the actual selling price of a **lot** or its value for any other purpose. **Estimates** do not include the **buyer's premium** or any applicable taxes. **Estimates** may be shown in different currencies from that of the saleroom for guidance only. The rate of exchange used in our printed catalogues is fixed at the latest practical date prior to the printing of the catalogue and may have changed by the time of our sale.

6 WITHDRAWAL

Christie's may, at its option, withdraw any **lot** at any time prior to or during the sale of the **lot**. Christie's has no liability to you for any decision to withdraw.

7 JEWELLERY

(a) Coloured gemstones (such as rubies, sapphires and emeralds) may have been treated to improve their look, through methods such as heating and oiling. These methods are accepted by the international jewellery trade but may make the gemstone less strong and/or require special care over time.

(b) All types of gemstones may have been improved by some method. You may request a gemmological report for any item which does not have a report if the request is made to us at least three weeks before the date of the auction and you pay the fee for the report.

(c) We do not obtain a gemmological report for every gemstone sold in our auctions. Where we do get gemmological reports from internationally accepted gemmological laboratories, such reports will be described in the catalogue. Reports from American gemmological laboratories will describe any improvement or treatment to the gemstone. Reports from European gemmological laboratories will describe any improvement or treatment only if we request that they do so, but will confirm when no improvement or treatment has been made. Because of differences in approach and technology, laboratories may not agree whether a particular gemstone has been treated, the amount of treatment or whether treatment is permanent. The gemmological laboratories will only report on the improvements or treatments known to the laboratories at the date of the report.

(d) For jewellery sales, **estimates** are based on the information in any gemmological report or, if no report is available, assume that the gemstones may have been treated or enhanced.

8 WATCHES & CLOCKS

(a) Almost all clocks and watches are repaired in their lifetime and may include parts which are not original. We do not give a **warranty** that any individual component part of any watch or clock is **authentic**. Watchbands described as "associated" are not part of the original watch and may not be **authentic**. Clocks may be sold without pendulums, weights or keys.

(b) As collectors' watches and clocks often have very fine and complex mechanisms, a general service, change of battery or further repair work may be necessary, for which you are responsible. We do not give a **warranty** that any watch or clock is in good working order. Certificates are not available unless described in the catalogue.

(c) Most watches have been opened to find out the type and quality of movement. For that reason, watches with water resistant cases may not be waterproof and we recommend you have them checked by a competent watchmaker before use.

Important information about the sale, transport and shipping of watches and watchbands can be found in paragraph H2(f).

2 RETURNING BIDDERS

We may at our option ask you for current identification as described in paragraph B1(a) above, a financial reference or a deposit as a condition of allowing you to bid. If you have not bought anything from any of our salerooms in the last two years or if you want to spend more than on previous occasions, please contact our Bids Department on +852 2978 9910 or email to bidsasia@christies.com.

3 IF YOU FAIL TO PROVIDE THE RIGHT DOCUMENTS

If in our opinion you do not satisfy our bidder identification and registration procedures including, but not limited to completing any anti-money laundering and/or anti-terrorism financing checks we may require to our satisfaction, we may refuse to register you to bid, and if you make a successful bid, we may cancel the contract for sale between you and the seller. Christie's may, at its option, specify the type of photo identification it will accept, for the purposes of bidder identification and registration procedures.

4 BIDDING ON BEHALF OF ANOTHER PERSON

(a) **As authorised bidder:** If you are bidding on behalf of another person, that person will need to complete the registration requirements above before you can bid, and supply a signed letter authorising you to bid for him/her.

(b) **As agent for an undisclosed principal:** If you are bidding as an agent for an undisclosed principal (the ultimate buyer(s)), you accept personal liability to pay the **purchase price** and all other sums due. Further, you warrant that:

(i) you have conducted appropriate customer due diligence on the ultimate buyer(s) of the **lot(s)** in accordance with any and all applicable anti-money laundering and sanctions laws, consent to us relying on this due diligence, and you will retain for a period of not less than 5 years the documentation and records evidencing the due diligence;

(ii) you will make such documentation and records evidencing your due diligence promptly available for immediate inspection by an independent third-party auditor upon our written request to do so. We will not disclose such documentation and records to any third-parties unless (1) it is already in the public domain,

(2) it is required to be disclosed by law, or (3) it is in accordance with anti-money laundering laws;
(iii) the arrangements between you and the ultimate buyer(s) are not designed to facilitate tax crimes;
(iv) you do not know, and have no reason to suspect, that the funds used for settlement are connected with, the proceeds of any criminal activity or that the ultimate buyer(s) are under investigation, charged with or convicted of money laundering, terrorist activities or other money laundering predicate crimes.
A bidder accepts personal liability to pay the **purchase price** and all other sums due unless it has been agreed in writing with Christie's before commencement of the auction that the bidder is acting as an agent on behalf of a named third party acceptable to Christie's and that Christie's will only seek payment from the named third party.

5 BIDDING IN PERSON
If you wish to bid in the saleroom you must register for a numbered bidding paddle at least 30 minutes before the auction. For help, please contact the Client Services Department on +852 2760 1766.

6 BIDDING SERVICES
The bidding services described below are a free service offered as a convenience to our clients and Christie's is not responsible for any error (human or otherwise), omission or breakdown in providing these services.
(A) PHONE BIDS
Your request for this service must be made no later than 24 hours prior to the auction. We will accept bids by telephone for **lots** only if our staff are available to take the bids. Telephone bids cannot be accepted for lots estimated below HK$30,000. If you need to bid in a language other than in English, you must arrange this well before the auction. We may record telephone bids. By bidding on the telephone, you are agreeing to us recording your conversations. You also agree that your telephone bids are governed by these Conditions of Sale.
(B) INTERNET BIDS ON CHRISTIE'S LIVE™
For certain auctions we will accept bids over the Internet. Please visit **www.christies.com/livebidding** and click on the 'Bid Live' icon to see details of how to watch, hear and bid at the auction from your computer. As well as these Conditions of Sale, internet bids are governed by the Christie's LIVE™ terms of use which are available on **www.christies.com**.
(C) WRITTEN BIDS
You can find a Written Bid Form at the back of our catalogues, at any Christie's office or by choosing the sale and viewing the **lots** online at **www.christies.com**. We must receive your completed Written Bid Form at least 24 hours before the auction. Bids must be placed in the currency of the saleroom. The auctioneer will take reasonable steps to carry out written bids at the lowest possible price, taking into account the **reserve**. If you make a written bid on a **lot** which does not have a **reserve** and there is no higher bid than yours, we will bid on your behalf at around 50% of the **low estimate** or, if lower, the amount of your bid. If we receive written bids on a **lot** for identical amounts, and at the auction these are the highest bids on the **lot**, we will sell the **lot** to the bidder whose written bid we received first.

1 WHO CAN ENTER THE AUCTION
We may, at our option, refuse admission to our premises or decline to permit participation in any auction or to reject any bid.

(c) withdraw any **lot**;
(d) divide any **lot** or combine any two or more **lots**;
(e) reopen or continue the bidding even after the hammer has fallen; and
(f) in the case of error or dispute and whether during or after the auction, to continue the bidding, determine the successful bidder, cancel the sale of the **lot**, or reoffer and resell any **lot**. If any dispute relating to bidding arises during or after the auction, the auctioneer's decision in exercise of this option is final.

4 BIDDING
The auctioneer accepts bids from:
(a) bidders in the saleroom;
(b) telephone bidders, and internet bidders through 'Christie's LIVE™ (as shown above in Section B6); and
(c) written bids (also known as absentee bids or commission bids) left with us by a bidder before the auction.

5 BIDDING ON BEHALF OF THE SELLER
The auctioneer may, at his or her sole option, bid on behalf of the seller up to but not including the amount of the **reserve** either by making consecutive bids or by making bids in response to other bidders. The auctioneer will not identify these as bids made on behalf of the seller and will not make any bid on behalf of the seller at or above the **reserve**. If **lots** are offered without **reserve**, the auctioneer will generally decide to open the bidding at 50% of the **low estimate** for the **lot**. If no bid is made at that level, the auctioneer may decide to go backwards at his or her sole option until a bid is made, and then continue up from that amount. In the event that there are no bids on a **lot**, the auctioneer may deem such **lot** unsold.

6 BID INCREMENTS
Bidding generally starts below the **low estimate** and increases in steps (bid increments). The auctioneer will decide at his or her sole option where the bidding should start and the bid increments. The usual bid increments are shown for guidance only on the Written Bid Form at the back of this catalogue.

7 CURRENCY CONVERTER
The saleroom video screens, and Christie's LIVE™and Christie's website may show bids in some other major currencies from that of the saleroom. Any conversion is for guidance only and we cannot be bound by any rate of exchange used by Christie's. Christie's is not responsible for any error (human or otherwise), omission or breakdown in providing these services.

8 SUCCESSFUL BIDS
Unless the auctioneer decides to use his or her discretion as set out in paragraph C3 above, when the auctioneer's hammer strikes, we have accepted the last bid. This means a contract for sale has been formed between the seller and the successful bidder. We will issue an invoice only to the registered bidder who made the successful bid. While we send out invoices by post and/or email after the auction, we do not accept responsibility for telling you whether or not your bid was successful. If you have bid by written bid, you should contact us by telephone or in person as soon as possible after the auction to get details of the outcome of your bid to avoid having to pay unnecessary storage charges.

9 LOCAL BIDDING LAWS
You agree that when bidding in any of our sales that you will strictly comply with all local laws and regulations in force at the time of the sale for the relevant sale site.

D THE BUYER'S PREMIUM, TAXES

1 THE BUYER'S PREMIUM
In addition to the **hammer price**, the successful bidder agrees to pay us a **buyer's premium** on the **hammer price** of each **lot** sold. On all **lots** we charge 25% of the **hammer price** up to and including HK$2,000,000, 20% on that part of the **hammer price** over HK$2,000,000 and up to and including HK$30,000,000, and 12.5% of that part of the **hammer price** above HK$30,000,000.

2 TAXES
The successful bidder is responsible for any applicable tax including any VAT, sales or compensating use tax or equivalent tax wherever such taxes may arise on the **hammer price** and the **buyer's premium**. It is the buyer's responsibility to ascertain and pay all taxes due. In all circumstances Hong Kong law takes precedence. Christie's recommends you obtain your own independent tax advice.
For **lots** Christie's ships to the United States, a state sales or use tax may be due on the **hammer price**, **buyer's premium** and shipping costs on the **lot**, regardless of the nationality or citizenship of the purchaser. Christie's is currently required to collect sales tax for **lots** it ships to the following states: New York. The applicable sales tax rate will be determined based upon the state, county, or locale to which the **lot** will be shipped. Successful bidders claiming an exemption from sales tax must provide appropriate documentation to Christie's prior to the release of the **lot**. For shipments to those states for which Christie's is not required to collect sales tax, a successful bidder may be required to remit use tax to that state's taxing authorities. Christie's recommends you obtain your own independent tax advice with further questions.

E WARRANTIES

1 SELLER'S WARRANTIES
For each **lot**, the seller gives a **warranty** that the seller:
(a) is the owner of the **lot** or a joint owner of the **lot** acting with the permission of the other co-owners or, if the seller is not the owner or a joint owner of the **lot**, has the permission of the owner to sell the **lot**, or the right to do so in law; and
(b) has the right to transfer ownership of the **lot** to the buyer without any restrictions or claims by anyone else.
If either of the above **warranties** are incorrect, the seller shall not have to pay more than the **purchase price** (as defined in paragraph F1(a) below) paid by you to us. The seller will not be responsible to you for any reason for loss of profits or business, expected savings, loss of opportunity or interest, costs, damages, **other damages** or expenses. The seller gives no **warranty** in relation to any **lot** other than as set out above and, as far as the seller is allowed by law, all **warranties** from the seller to you, and all other obligations upon the seller which may be added to this agreement by law, are excluded.

2 OUR AUTHENTICITY WARRANTY
We warrant, subject to the terms below, that the **lots** in our sales are **authentic** (our "**authenticity warranty**"). If, within 5 years of the date of the auction, you give notice to us that your **lot** is not **authentic**, subject to the terms below, we will refund the **purchase price** paid by you. The meaning of **authentic** can be found in the glossary at the end of these Conditions of Sale. The terms of the **authenticity warranty** are as follows:
(a) It will be honoured for claims notified within a period of 5 years from the date of the auction. After such time, we will not be obligated to honour the **authenticity warranty**.
(b) It is given only for information shown in **UPPERCASE type** in the first line of the **catalogue description** (the "**Heading**"). It does not apply to any information other than in the **Heading** even if shown in **UPPERCASE type**.
(c) The **authenticity warranty** does not apply to any **Heading** or part of a **Heading** which is **qualified**. **Qualified** means limited by a clarification in a **lot's catalogue description** or by the use in a **Heading** of

one of the terms listed in the section titled **Qualified Headings** on the page of the catalogue headed "Important Notices and Explanation of Cataloguing Practice". For example, use of the term "ATTRIBUTED TO..." in a **Heading** means that the **lot** is in Christie's opinion probably a work by the named artist but no **warranty** is provided that the **lot** is the work of the named artist. Please read the full list of **Qualified Headings** and a **lot's** full **catalogue description** before bidding.

(d) The **authenticity warranty** applies to the **Heading** as amended by any **Saleroom Notice**.

(e) The **authenticity warranty** does not apply where scholarship has developed since the auction leading to a change in generally accepted opinion. Further, it does not apply if the **Heading** either matched the generally accepted opinion of experts at the date of the sale or drew attention to any conflict of opinion.

(f) The **authenticity warranty** does not apply if the **lot** can only be shown not to be **authentic** by a scientific process which, on the date we published the catalogue, was not available or generally accepted for use, or which was unreasonably expensive or impractical, or which was likely to have damaged the **lot**.

(g) The benefit of the **authenticity warranty** is only available to the original buyer shown on the invoice for the **lot** issued at the time of the sale and only if, on the date of the notice of claim, the original buyer is the full owner of the **lot** and the **lot** is free from any claim, interest or restriction by anyone else. The benefit of this **authenticity warranty** may not be transferred to anyone else.

(h) In order to claim under the **authenticity warranty** you must:

(i) give us written notice of your claim within 5 years of the date of the auction. We may require full details and supporting evidence of any such claim;

(ii) at Christie's option, we may require you to provide the written opinions of two recognised experts in the field of the **lot** mutually agreed by you and us in advance confirming that the **lot** is not **authentic**. If we have any doubts, we reserve the right to obtain additional opinions at our expense; and

(iii) return the **lot** at your expense to the saleroom from which you bought it in the **condition** it was in at the time of sale.

(i) Your only right under this **authenticity warranty** is to cancel the sale and receive a refund of the **purchase price** paid by you to us. We will not, in any circumstances, be required to pay you more than the **purchase price** nor will we be liable for any loss of profits or business, loss of opportunity or value, expected savings or interest, costs, damages, **other damages** or expenses.

(j) **Books**. Where the **lot** is a book, we give an additional **warranty** for 14 days from the date of the sale that if on collation any **lot** is defective in text or illustration, we will refund your **purchase price**, subject to the following terms:

(a) This additional **warranty** does not apply to:

(i) the absence of blanks, half titles, tissue guards or advertisements, damage in respect of bindings, stains, spotting, marginal tears or other defects not affecting completeness of the text or illustration;

(ii) drawings, autographs, letters or manuscripts, signed photographs, music, atlases, maps or periodicals;

(iii) books not identified by title;

(iv) **lots** sold without a printed **estimate**;

(v) books which are described in the catalogue as sold not subject to return; or

(vi) defects stated in any **condition** report or announced at the time of sale.

(b) To make a claim under this paragraph you must give written details of the defect and return the **lot** to the sale room at which you bought it in the same **condition** as at the time of sale, within 14 days of the date of the sale.

(k) **South East Asian Modern and Contemporary Art and Chinese Calligraphy and Painting.**

In these categories, the **authenticity warranty** does not apply because current scholarship does not permit the making of definitive statements. Christie's does, however, agree to cancel a sale in either of these two categories of art where it has been proven the **lot** is a forgery. Christie's will refund to the original buyer the **purchase price** in accordance with the terms of Christie's **authenticity warranty**, provided that the original buyer notifies us with full supporting evidence documenting the forgery claim within twelve (12) months of the date of the auction. Such evidence must be satisfactory to us that the **lot** is a forgery in accordance with paragraph E2(h)(ii) above and the **lot** must be returned to us in accordance with E2h(iii) above. Paragraphs E2(b), (c), (d), (e), (f) and (g) and (i) also apply to a claim under these categories.

The risk in and responsibility for the **lot** will transfer to you from whichever is the earlier of the following:

(a) When you collect the **lot**; or

You must also pay all costs, expenses, losses, damages and legal fees we have to pay or may suffer and any shortfall in the seller's commission on the resale;

You will be deemed to have granted such security to us and we may retain such property as collateral security for your obligations to us; and

(ix) we can take any other action we see necessary or appropriate.

(b) If you owe money to us or to another **Christie's Group** company, we can use any amount you do pay, including any deposit or other part-payment you have made to us, or which we owe you, to pay off any amount you owe to us or another **Christie's Group** company for any transaction.

H TRANSPORT AND SHIPPING

1 TRANSPORT AND SHIPPING

We will enclose a transport and shipping form with each invoice sent to you. You must make all transport and shipping arrangements. However, we can arrange to pack, transport and ship your property if you ask us to and pay the costs of doing so. We recommend that you ask us for an **estimate**, especially for any large items or items of high value that need professional packing before you bid. We may also suggest other handlers, packers, transporters or experts if you ask us to do so. For more information, please contact Christie's Post-Sale Services Department on +852 2760 1766 or email to postsaleasia@christies.com. We will take reasonable care when we are handling, packing, transporting and shipping a **lot**. However, if we recommend another company for any of these purposes, we are not responsible for their acts, failure to act or neglect.

2 EXPORT AND IMPORT

Any **lot** sold at auction may be affected by laws on exports from the country in which it is sold and the import restrictions of other countries. Many countries require a declaration of export for property leaving the country and/or an import declaration on entry of property into the country. Local laws may prevent you from importing a **lot** or may prevent you selling a **lot** in the country you import it into.
We will not be obliged to cancel your purchase and refund the **purchase price** if your **lot** may not be exported, imported or it is seized for any reason by a government authority. It is your responsibility to determine and satisfy the requirements of any applicable laws or regulations relating to the export or import of any **lot** you purchase.
(a) You alone are responsible for getting advice about and meeting the requirements of any laws or regulations which apply to exporting or importing any **lot** prior to bidding. If you are refused a licence or there is a delay in getting one, you must still pay us in full for the **lot**. We may be able to help you apply for the appropriate licences if you ask us to and pay our fee for doing so. However, we cannot guarantee that you will get one. For more information, please contact Christie's Post-Sale Services Department on +852 2760 1766 or email to postsaleasia@christies.com.
(b) **Lots made of protected species**
Lots made of or including (regardless of the percentage) endangered and other protected species of wildlife are marked with the symbol **~** in the catalogue. This material includes, among other things, ivory, tortoiseshell, crocodile skin, rhinoceros horn, whalebone certain species of coral, and rosewood. You should check the relevant customs laws and regulations before bidding on any **lot** containing wildlife material if you plan to import the **lot** into another country. Several countries refuse to allow you to import property containing these materials, and some other countries require a licence from the relevant regulatory agencies in the countries of exportation as well as importation. In some cases, the **lot** can only be shipped with an independent scientific confirmation of species and/or age and you will need to obtain these at your own cost. If a **lot** contains elephant ivory, or any other wildlife material that could be confused with elephant ivory, (for example, mammoth ivory, walrus ivory, helmeted hornbill ivory) please see further important information in paragraph (c) if you are proposing to import the **lot** into the USA. We will not be obliged to cancel your purchase and refund the **purchase price** if your **lot** may not be exported, imported or it is seized for any reason by a government authority. It is your responsibility to determine and satisfy the requirements of any applicable laws or regulations relating to the export or import of property containing such protected or regulated material.
(c) **US import ban on African elephant ivory**
The USA prohibits the import of ivory from the African elephant. Any **lot** containing elephant ivory or other wildlife material that could be easily confused with elephant ivory (for example, mammoth ivory, walrus ivory, helmeted hornbill ivory) can only be imported into the US with results of a rigorous scientific test acceptable to Fish & Wildlife, which confirms that the material is not African elephant ivory. Where we have conducted such rigorous scientific testing on a **lot** prior to sale, we will make this clear in the lot description. In all other cases, we cannot confirm whether a **lot** contains African elephant ivory, and you will buy that **lot** at your own risk and be responsible for any scientific test or other reports required for import into the USA at your own cost. If such scientific test is inconclusive or confirms the material is from the African elephant, we will not be obliged to cancel your purchase and refund the **purchase price**.
(d) **Lots of Iranian origin**
Some countries prohibit or restrict the purchase and/or import of Iranian-origin "works of conventional craftsmanship" (works that are not by a recognized artist and/or that have a function, for example: carpets, bowls, ewers, tiles, ornamental boxes). For example, the USA prohibits the import of this type of property and its purchase by US persons (wherever located). Other countries, such as Canada, only permit the import of this property in certain circumstances. As a convenience to buyers, Christie's indicates under the title of a **lot** if the **lot** originates from Iran (Persia). It is your responsibility to ensure you do not bid on or import a **lot** in contravention of the sanctions or trade embargoes that apply to you.
(e) **Gold**
Gold of less than 18ct does not qualify in all countries as 'gold' and may be refused import into those countries as 'gold'.
(f) **Watches**
Many of the watches offered for sale in this catalogue are pictured with straps made of endangered or protected animal materials such as alligator or crocodile. These **lots** are marked with the symbol **Ψ** in the catalogue. These endangered species straps are shown for display purposes only and are not for sale. Christie's will remove and retain the strap prior to shipment from the sale site. At some sale sites, Christie's may, at its discretion, make the displayed endangered species strap available to the buyer of the **lot** free of charge if collected in person from the sale site within 1 year of the date of the sale. Please check with the department for details on a particular **lot**.
For all symbols and other markings referred to in paragraph H2, please note that **lots** are marked as a convenience to you, but we do not accept liability for errors or for failing to mark **lots**.

I OUR LIABILITY TO YOU

(a) We give no **warranty** in relation to any statement made, or information given, by us or our representatives or employees, about any **lot** other than as set out in the **authenticity warranty** and, as far as we are allowed by law, all **warranties** and other terms which may be added to this agreement by law are excluded. The seller's **warranties** contained in paragraph E1 are their own and we do not have any liability to you in relation to those **warranties**.
(b) (i) We are not responsible to you for any reason (whether for breaking this agreement or any other matter relating to your purchase of, or bid for, any **lot**) other than in the event of fraud or fraudulent misrepresentation by us or other than as expressly set out in these conditions of sale; and
(ii) We do not give any representation, warranty or guarantee or assume any liability of any kind in respect of any **lot** with regard to merchantability, fitness for a particular purpose, description, size, quality, condition, attribution, authenticity, rarity, importance, medium, provenance, exhibition history, literature, or historical relevance. Except as required by local law, any warranty of any kind is excluded by this paragraph.
(c) In particular, please be aware that our written and telephone bidding services, Christie's LIVE™, **condition** reports, currency converter and saleroom video screens are free services and we are not responsible to you for any error (human or otherwise), omission, breakdown, or delay, unavailability, suspension or termination of any of these services.
(d) We have no **responsibility** to any person other than a buyer in connection with the purchase of any **lot**.
(e) If, in spite of the terms in paragraphs (a) to (d) or E2(i) above, we are found to be liable to you for any reason, we shall not have to pay more than the **purchase price** paid by you to us. We will not be responsible to you for any reason for loss of profits or business, loss of opportunity or value, expected savings or interest, costs, damages, or expenses.

J OTHER TERMS

1 OUR ABILITY TO CANCEL

In addition to the other rights of cancellation contained in this agreement, we can cancel a sale of a **lot** if we reasonably believe that completing the transaction is, or may be, unlawful or that the sale places us or the seller under any liability to anyone else or may damage our reputation.

2 RECORDINGS

We may videotape and record proceedings at any auction. We will keep any personal information confidential, except to the extent disclosure is required by law. However, we may, through this process, use or share these recordings with another **Christie's Group** company and marketing partners to analyse our customers and to help us to tailor our services for buyers. If you do not want to be videotaped, you may make arrangements to make a telephone or written bid or bid on Christie's LIVE™ instead. Unless we agree otherwise in writing, you may not videotape or record proceedings at any auction.

3 COPYRIGHT

We own the copyright in all images, illustrations and written material produced by or for us relating to a **lot** (including the contents of our catalogues unless otherwise noted in the catalogue). You cannot use them without our prior written permission. We do not offer any guarantee that you will gain any copyright or other reproduction rights to the **lot**.

4 ENFORCING THIS AGREEMENT

If a court finds that any part of this agreement is not valid or is illegal or impossible to enforce, that part of

the agreement will be treated as being deleted and the rest of this agreement will not be affected.

5 TRANSFERRING YOUR RIGHTS AND RESPONSIBILITIES
You may not grant a security over or transfer your rights or responsibilities under these terms on the contract of sale with the buyer unless we have given our written permission. This agreement will be binding on your successors or estate and anyone who takes over your rights and responsibilities.

6 TRANSLATIONS
If we have provided a translation of this agreement, we will use the English version in deciding any issues or disputes which arise under this agreement.

7 PERSONAL INFORMATION
We will hold and process your personal information and may pass it to another **Christie's Group** company for use as described in, and in line with, our privacy policy at **www.christies.com**.

8 WAIVER
No failure or delay to exercise any right or remedy provided under these Conditions of Sale shall constitute a waiver of that or any other right or remedy, nor shall it prevent or restrict the further exercise of that or any other right or remedy. No single or partial exercise of such right or remedy shall prevent or restrict the further exercise of that or any other right or remedy.

9 LAW AND DISPUTES
The rights and obligations of the parties with respect to these Conditions of Sale, the conduct of the auction and any matters connected with any of the foregoing shall be governed and interpreted by the Hong Kong laws. By bidding at auction, whether present in person or by agent, by written bid, telephone or other means, the buyer shall be deemed to
have accepted these Conditions and submitted, for the benefit of Christie's, to the exclusive jurisdiction of the Hong Kong courts, and also accepted that Christie's also has the right to pursue remedies in any other jurisdiction in order to recover
any outstanding sums due from the buyer.

10 REPORTING ON WWW.CHRISTIES.COM

Sales totals are **hammer price** plus **buyer's premium** and do not reflect costs, financing fees, or application of buyer's or seller's credits. We regret that we cannot agree to requests to remove these details from **www.christies.com**.

業務規定

業務規定和重要通知及目錄編列方法之說明列明佳士得拍賣刊載在本目錄中**拍賣品**的條款。
通過登記競投和／或在拍賣會中競投即表示您同意接受這些條款，因此，您須在競投之前仔細閱讀這些條款。下述粗體字體詞語的解釋在尾部詞匯表列明。

除非佳士得擁有**拍賣品**所有權（以 Δ 標示），佳士得為賣方的代理人。

A. 拍賣之前

1. **拍賣品**描述

(a) 目錄描述部分使用的某些詞匯有特殊意義。詳情請見構成條款部分的重要通知及目錄編列方法之說明。對目錄內的標識的解釋，請見本目錄內“本目錄中使用的各類標識”。
(b) 本公司在本目錄中對任何**拍賣品**的描述，**拍賣品狀況**報告及其它陳述（不管是口頭還是書面），包括**拍賣品**性質或**狀況**、藝術家、時期、材料、概略尺寸或**來源**均屬我們意見之表述，而不應被作為事實之陳述。我們不像專業的歷史學家及學者那樣進行深入的研究。所有的尺寸及重量僅為粗略估計。

2. 對於**拍賣品**描述佳士得所負的責任

我們不對**拍賣品**的性質提供任何保證，除了下述第 E2 段的**真品保證**以及第 I 段另有約定。

3. 狀況

(a) 在我們拍賣會上拍賣的**拍賣品狀況**可因年代、先前損壞、修復、修理及損耗等因素而差異甚大。其性質即意味著幾乎不可能處於完美的**狀況**。**拍賣品**是按照其在拍賣之時的情況以“現狀”出售，而且不包括佳士得或賣方的任何陳述或保證或對於**狀況**的任何形式的責任承擔。
(b) 在本目錄條目或**狀況**報告中提及**狀況**不等同於對**狀況**的完整描述，圖片可能不會清晰展示出**拍賣品**。**拍賣品**的色彩和明暗度在印刷品或屏幕上看起來可能會與實體檢查時的情況不同。**狀況**報告可協助您評估**拍賣品**的**狀況**。為方便買方，**狀況**報告為免費提供，僅作為指引。**狀況**報告提供了我們的意見，但是可能未指出所有的缺陷、內在瑕疵、修復、更改及改造，因為我們的僱員不是專業修復或維護人員。出於這個原因，他們不能替代您親自檢查**拍賣品**或您自己尋求的專業意見。買方有責任確保自己已經要求提供、收悉及考慮了任何**狀況**報告。

4. 拍賣之前檢查**拍賣品**

(a) 如果您計劃競投一件**拍賣品**，應親自或通過具有專業知識之代表檢視，以確保您接受**拍賣品**描述及**狀況**。我們建議您從專業修復人員或其它專業顧問那裏索取意見。
(b) 拍賣之前的檢視免費向公衆開放。在拍賣之前的檢視或通過預約，我們的專家可在場回答問題。

5. 估價

估價是基於**拍賣品**的**狀況**、稀有程度、質量、**來源**及類似物品的近期拍價決定。**估價**可能會改變。您或任何其他人在任何情況下都不可能依賴**估價**，將其作為**拍賣品**的實際售價的預測或保證。**估價**不包括**買方酬金**或任何適用的稅費。**估價**可能以拍賣場當地貨幣以外的貨幣顯示並僅作指引。本目錄使用的貨幣兌換率是根據最貼近目錄付印時的兌換率設定，所以可能與拍賣當日兌換率有差別。

6. 撤回

佳士得有權單方面決定在**拍賣品**拍賣過程中或拍賣之前的任何時間將**拍賣品**撤回。佳士得無須就任何撤回決定向您承擔責任。

7. 珠寶

(a) 有色寶石（如紅寶石、藍寶石及綠寶石）可能經過處理以改良外觀，包括加熱及上油等方法。這些方法都被國際珠寶行業認可，但是經處理的寶石的硬度可能會降低及／或在日後需要特殊的保養。
(b) 所有類型的寶石均可能經過某些改良處理。如果某件**拍賣品**沒有報告，您可以在拍賣日之前至少提前三周向我們要求寶石鑒定報告，報告的費用由您支付。
(c) 我們不會為每件拍賣的寶石拿取鑒定報告。若我們有從國際認可的寶石鑒定實驗室取得鑒定報告，我們會在目錄中提及。從美國寶石鑒定實驗室發出的鑒定報告會描述對寶石的改良或處理。歐洲寶石鑒定實驗室的報告僅在我們要求的時候，才會提及對寶石的改良及處理，但是該報告會確認該寶石沒有被改良或處理。因各實驗室使用方法和技術的差異，對某寶石是否處理過、處理的程度或處理是否為永久性，都可能持不同意見。寶石鑒定實驗室僅對報告作出日之前實驗室所知悉的改進及處理進行報告。
(d) 對於珠寶銷售來說，**估價**是以寶石鑒定報告中的信息為基礎，如果沒有報告，就會認為寶石可能已經被處理或提升過。

8. 鐘錶

(a) 幾乎所有的鐘錶在使用期內都被修理過，可能都含有非原裝零部件。我們不能**保證**任何鐘錶的任何個別零部件都是原裝。被陳述為“關聯”字樣的錶帶不是原裝錶的部分，可能不是**真品**。拍賣的鐘可能跟隨沒有鐘擺、鐘錘或鑰匙出售。
(b) 收藏家等級的鐘錶經常有非常精細複雜的機械構造，可能需要一般保養服務、更換電池或進一步的修理工作，而這些都由買方負責。我們不**保證**每一隻鐘錶都是在良好運作狀態。除非目錄中有提及，我們不提供證書。
(c) 大多數的錶都被打開過查看機芯的型號及質量。因為這個原因，帶有防水錶殼的錶可能不能防水，在使用之前我們建議您讓專業鐘錶師事先檢驗。

手錶及錶帶的拍賣及運送方面的重要信息，請見第 H2(f) 段。

B. 登記競投

1. 新競投人

(a) 如果這是您第一次在佳士得競投，或者您曾參與我們的拍賣，但在過去兩年內未曾從任何佳士得拍賣場成功競投過任何東西，您必須在拍賣之前至少 48 個小時登記，以給我們足够的時間來處理及批准您的登記。我們有權單方面不允許您登記成為競投人。您需提供以下資料：
    (i) 個人客戶：帶有照片的身份證明（駕照執照、國民身份證或護照）及（如果身份證文件上沒有顯示現時住址資料）現時住址證明，如：用事業帳單或銀行月結單。
    (ii) 公司客戶：顯示名稱及注冊地址的公司注冊證明或類似文件，公司地址證明，被授權競投者附有相片的身份證文件，由法定代表人簽署及蓋有公司章（若有）的競投授權書，以及列出所有董事和受益股東的文件證明。
    (iii) 信托、合夥、離岸公司及其它業務結構，請提前聯繫我們商談要求。
(b) 我們可能要求您向我們提供財務證明及／或押金作為許可您競投的條件。如需幫助，請聯繫我們的客戶服務部：+852 2760 1766。

2. 再次參與競投的客人

我們可選擇要求您提供以上 B1(a) 段所提及的現時身份證明，財務證明及／或押金作為許可您競投的條件。如果您過去兩年中沒有從我們的拍賣會成功投得**拍賣品**，或者您本次擬出價金額高於過往，請聯繫我們的投標部：+852 2978 9910 或電郵至 bidsasia@christies.com。

3. 如果您未能提供正確的文件

如果我們認為，您未能滿足我們對競投者身份及登記手續的要求，包括但不限於完成及滿足本公司可能要求進行的所有反洗黑錢和／或反恐佈主義財政審查，我們可能會不允許您登記競投，而如果您成功投得**拍賣品**，我們可能撤銷您與賣方之間的買賣合約。佳士得有權單方面決定所須的身份證明文件類別，作為滿足我們對競投者身份及登記手續的要求。

4. 代表他人競投

(a) 作為授權競投人：如果您代表他人競投，在競投前，委託人需要完成以上的登記手續及提供已簽署的授權書，授權您代表其競投。
(b) 作為隱名委托人的代理人：如果您以代理人身份為隱名委托人（最終的買方）進行競投，您同意承擔支付購買款項和所有其他應付款項的個人責任。並且，您保證：
    (i) 您已經根據所有適用的反洗黑錢及制裁法律對**拍賣品**的最終的買方進行必要的客戶盡職調查，同意我們依賴該盡職調查。並且，您將在不少於 5 年的期間裏保存證明盡職調查的文件和記錄。
    (ii) 您在收到我們書面要求後可以將證明盡職調查的文件和記錄立即提供給獨立第三方審計人員即時查閱。我們不會向任何第三方披露上述文件和記錄，除非 (1) 它已經在公共領域存在，(2) 根據法律要求須被披露，(3) 符合反洗黑錢法律規定。
    (iii) 您和最終的買方之間的安排不是為了便於任何涉稅犯罪。
    (iv) 您不知曉並且沒有理由懷疑用於結算的資金和任何犯罪收入有關或最終的買方因洗黑錢，恐怖活動或其他基於洗黑錢的犯罪而被調查，被起訴或被定罪。

除非競投人和佳士得在拍賣開始前書面同意競投人僅作為佳士得認可並指定的第三方的代理參與競投並且佳士得只會向該指定第三方收取付款，競投人同意就繳付購買款項和所有其他應付款項負上個人法律責任。

5. 親自出席競投

如果您希望在拍賣現場競投，必須在拍賣舉行前至少 30 分鐘辦理登記手續，並索取競投號碼牌。如需協助，請聯繫客戶服務部：+852 2760 1766。

6. 競投服務

下述的競投服務是為方便客戶而設，如果在提供該服務出現任何錯誤（人為或其它），遺漏或故障，佳士得均不負上任何責任。

(A) 電話競投

您必須在拍賣開始前至少 24 小時辦理申請電話競投。佳士得只會在能夠安排人員協助電話競投的情況下接受電話競投。估價低於港幣 30,000 元之**拍賣品**將不接受電話競投。若需要以英語外的其他語言進行競投，須儘早在拍賣之前預先安排。電話競投將可被錄音。以電話競投即代表您同意其對話被錄音。您同意電話競投受業務規定管限。

(B) 在 Christie's LIVE ™網絡競投

在某些拍賣會，我們會接受網絡競投。請登入 www.christies.com/livebidding，點擊“現場競投”圖標，瞭解如何從電腦聆聽及觀看拍賣及參與競投。網絡競投受業務規定及 Christie's Live ™使用條款的管限，詳情請見 www.christies.com 網站。

(C) 書面競投

您可於本目錄，任何佳士得辦公室或通過 www.christies.com 選擇拍賣並查看**拍賣品**取得書面競投表格。您必須在拍賣開始前至少 24 小時提交已經填妥的書面競投表格。投標必須是以拍賣會當地的貨幣為單位。拍賣官將在參考**底價**後，合理地履行書面競投務求以可能的最低價行使書面標。如果您以書面競投一件沒有**底價**的**拍賣品**，而且沒有其他更高叫價，我們會為您以**低端估價**的 50% 進行競投；或如果您的書面標比上述更低，則以您的書面標的價格進行競投。如佳士得收到多個競投價相等的書面競投，而在拍賣時此等競投價乃該**拍賣品**之最高出價，則該**拍賣品**售給最先送達其書面競投書給本公司之競投人。

C. 拍賣之時

1. 進入拍賣現場

我們有權不允許任何人士進入拍賣場地，參與拍賣，亦可拒絕接受任何競投。

2. 底價

除非另外列明，所有**拍賣品**均有**底價**。不定有**底價**的**拍賣品**，在**拍賣品**號碼旁邊用•標記。**底價**不會高於**拍賣品**的**低端估價**。

3. 拍賣官之酌情權

拍賣官可以酌情選擇：
(a) 拒絕接受任何競投；
(b) 以其決定方式將競投提前或拖後，或改變**拍賣品**的順序；
(c) 撤回任何**拍賣品**；
(d) 將任何**拍賣品**分開拍賣或將兩件或多件**拍賣品**合併拍賣；
(e) 重開或繼續競投，即便已經下槌；
(f) 如果有出錯或爭議，無論是在拍賣時或拍賣後，選擇繼續拍賣、決定誰是成功競投人、取消**拍賣品**的拍賣或將**拍賣品**重新拍賣或出售。在拍賣之時或後對競投有任何爭議，拍賣官有最終決定權。

4. 競投

拍賣官接受以下競投：
(a) 拍賣會場參與競投的競投人；
(b) 從電話競投人，通過 Christie's Live ™（如第 B6 部分所示）透過網絡競投的競投人；
(c) 拍賣之前提交佳士得的書面競投（也稱為不在場競投或委托競投）。

5. 代表賣方競投

拍賣官可選擇代賣方競投的方式連續競投或以回應其他競投者的投標而競投的方式，直至達到**底價**以下。拍賣官不會特別指明此乃代表賣方的競投。拍賣官不會代表賣方作出相等於或高於**底價**之出價。就不設**底價**的**拍賣品**，拍賣官通常會以**低端估價**的 50% 開始拍賣。如果在此價位沒有人競投，拍賣官可

以自行斟酌將價格下降繼續拍賣，直至有人競投，然後從該價位向上拍賣。如果無人競投該**拍賣品**，拍賣官可視該**拍賣品**為流拍**拍賣品**。

6. 競投價遞增幅度

競投通常從低於**低端估計**開始，然後逐步增加（競投價遞增幅度）。拍賣官會自行決定競投開始價位及遞增幅度。本目錄內的書面競投表格上顯示的是一般遞增幅度，僅供閣下參考。

7. 貨幣兌換

拍賣會的顯示板，Christie's Live ™和佳士得網站可能會以拍賣場當地貨幣外的主要貨幣來展示競投。任何佳士得使用的兌換率僅作指引，佳士得並不受其約束。對於在提供該服務出現的任何錯誤（人為或其它），遺漏或故障，佳士得並不負責。

8. 成功競投

除非拍賣官決定使用以上 C3 段中的酌情權，拍賣官下槌即表示對最終競投價之接受。這代表賣方和成功競投人之間的買賣合約之訂立。我們僅向已登記的成功競投人開具發票。拍賣後我們會以郵寄及／或電子郵件方式發送發票，但我們並不負責通知閣下競投是否成功。如果您以書面競投，拍賣後您應儘快以電話聯繫我們或親臨本公司查詢競投結果，以避免產生不必要的倉儲費用。

9. 競投地法律

當您在我們的拍賣中競投時，您同意您會嚴格遵守所有在拍賣時生效並適用於相關拍賣場所的當地法律及法規。

D. 買方酬金及稅款

1. 買方酬金

成功競投人除支付**成交價**外，亦同意支付本公司以該**拍賣品成交價**計算的**買方酬金**。酬金費率按每件**拍賣品成交價**首港幣 2,000,000 元之 25%；加逾港幣 2,000,000 元以上至港幣 30,000,000 元部分之 20%; 加逾港幣 30,000,000 元以上之 12.5% 計算。

2. 稅費

成功競投者將負責所有適用**拍賣品**稅費，包括增值稅，銷售或補償使用稅費或者所有基於**成交價**和**買方酬金**而產生的該等稅費。買方有責任查明並支付所有應付稅費。在任何情況下香港法律先決適用。佳士得建議您徵詢獨立稅務意見。

有關佳士得運送至美國的**拍賣品**，不論買方國籍或公民身份，均可能須支付基於**成交價**，**買方酬金**和運費而產生的州銷售稅或使用稅費。佳士得現時須就其運送至紐約州的拍賣品收取銷售稅。適用銷售稅率由拍賣品將運送到的州分，縣，地點而決定。要求豁免銷售稅的成功競投人必須在提取拍賣品之前向佳士得提供適當文件。佳士得不須收取稅費的州分，成功競投人可能須繳付稅費予該州分的稅務機構。佳士得建議您徵詢獨立稅務意見。

E. 保證

1. 賣方保證

對於每件**拍賣品**，賣方**保證**其：

(a) 為**拍賣品**的所有人，或**拍賣品**的共有人之一並獲得其他共有人的許可；或者，如果賣方不是**拍賣品**的所有人或共有人之一，其已獲得所有人的授權出售**拍賣品**或其在法律上有權這麼做；

(b) 有權利將**拍賣品**的所有權轉讓給買方，且該權利不負擔任何限制或任何其他人之索賠權。

如果以上任何**保證**不確實，賣方不必支付超過您已向我們支付的**購買款項**（詳見以下第 F1(a) 段定義）的金額。賣方不會就閣下利潤上或經營的損失、預期存款、商機喪失或利息的損失、成本、賠償金、**其他賠償**或支出承擔責任。賣方不就任何**拍賣品**提供任何以上列舉之外的**保證**；只要法律許可，所有賣方對您做出的**保證**及法律要求加入本協議的所有其它賣方責任均被免除。

2. 真品保證

在不抵觸以下條款的情況下，本公司保證我們拍賣的**拍賣品**都是**真品**（我們的“**真品保證**”）。如果在拍賣日後的五年內，您通知我們您的**拍賣品**不是**真品**，在符合以下條款規定之下，我們將把您支付的**購買款項**退還給您。

業務規定的詞匯表裏有對“**真品**”一詞做出解釋。**真品保證**條款如下：

(a) 我們對在拍賣日後 5 年內提供的申索通知提供**真品保證**。此期限過後，我們不再提供**真品保證**。

(b) 我們只會對本**目錄描述**第一行（“**標題**”）以**大階字體**注明的資料作出**真品保證**。除了**標題**中顯示的資料，我們不對任何**標題**以外的資料（包括**標題**以外的**大階字體**注明）作出任何保證。

(c) **真品保證**不適用**有保留標題**或**有保留**的部分**標題**。**有保留**是指受限於**拍賣品目錄描述**內的解釋，或者**標題**中有“重要通告及目錄編列方法之說明”內**有保留標題**的某些字眼。例如：**標題**中對“認為是…之作品”的使用指佳士得認為**拍賣品**可能是某位藝術家的作品，但是佳士得不**保證**該作品一定是該藝術家的作品。在競投前，請閱畢“**有保留標題**”列表及**拍賣品**的**目錄描述**。

(d) **真品保證**適用於被**拍賣會通告**修訂後的**標題**。

(e) **真品保證**不適用於在拍賣之後，學術發展導致被普遍接受的學者或專家意見有所改變。此保證亦不適用於在拍賣日時，**標題**乎合被普遍接受的學者或專家的意見，或**標題**指出意見衝突的地方。

(f) 如果**拍賣品**只有通過科學鑒定方法才能鑒定出不是**真品**，而在我們出版目錄之日，該科學方法還未存在或未被普遍接納，或價格太昂貴或不實際，或者可能損壞**拍賣品**，則**真品保證**不適用。

(g) **真品保證**僅適用於**拍賣品**在拍賣時由佳士得發出之發票之原本買方，且僅在申索通知做出之日原本買方是**拍賣品**的唯一所有人，且**拍賣品**不受其他申索權、權利主張或任何其他制約的限制。此**真品保證**中的利益不可以轉讓。

(h) 要申索**真品保證**下的權利，您必須：

(i) 在拍賣日後 5 年內，向我們提供書面的申索通知。我們可以要求您提供上述申索完整的細節及佐證證據；

(ii) 佳士得有權要求您提供為佳士得及您均事先同意的在此**拍賣品**領域被認可的兩位專家的書面意見，確認該**拍賣品**不是**真品**。如果我們有任何疑問，我們保留自己支付費用獲取更多意見的權利；及

(iii) 自賣交回與拍賣時**狀況**相同的**拍賣品**給佳士得拍賣場。

(i) 您在本**真品保證**下唯一的權利就是取消該項拍賣及取回已付的**購買款項**。在任何情況下我們不須支付您超過您已向我們支付的**購買款項**的金額，同時我們也無須對任何利潤或經營損失、商機或價值喪失、預期存款或利息、成本、賠償金或**其他賠償**或支出承擔責任。

(j) **書籍**。如果**拍賣品**為書籍，我們提供額外自拍賣日起為期 14 天的**保證**，如經校對後，**拍賣品**的文本或圖標存有瑕疵，在以下條款的規限下，我們將退回已付的**購買款項**：

(a) 此額外**保證**不適用於：

(i) 缺少空白頁、扉頁、保護頁、廣告、及書籍鑲邊的破損、污漬、邊緣磨損或其它不影響文本及圖標完整性的瑕疵；

(ii) 繪圖、簽名、書信或手稿；帶有簽名的照片、音樂唱片、地圖冊、地圖或期刊；

(iii) 沒有標題的書籍；

(iv) 沒有標明**估價**的已出售**拍賣品**；

(v) 目錄中表明售出後不可退貨的書籍；

(vi) **狀況**報告中或拍賣時公告的瑕疵。

(b) 要根據本條規定申索權利，您必須在拍賣後的 14 天內就有關瑕疵提交書面通知，並交回與拍賣時**狀況**相同的**拍賣品**給當時進行拍賣的佳士得拍賣行。

(k) 東南亞現代及當代藝術以及中國書畫。

真品保證並不適用於此類別**拍賣品**。目前學術界不容許對此類別作出確實之說明，但佳士得同意取消被證實為贋品之東南亞現代及當代藝術以及中國書畫**拍賣品**之交易。已付之**購買款項**則根據佳士得**真品保證**的條款退還予原本買方，但賣方必須在拍賣日起 12 個月內以書面通知本公司有關**拍賣品**為贋品並能按以上 E2(h)(ii) 的規定提供令佳士得滿意的證據，證實該**拍賣品**為贋品，及須按照以上 E2(h)(iii) 規定交回**拍賣品**給我們。E2(b), (c), (d), (e), (f), (g) 和 (i) 適用於此類別之申索。

(ii) 取消交易並按照我們認為合適的條件對**拍賣品**公開重新拍賣或私下重新售賣。您必須向我們支付原來您應支付的**購買款項**與再次轉賣收益之間的差額。您也必須支付我們必須支付或可能蒙受的一切成本、費用、損失、賠償，法律費用及任何賣方酬金的差額；

(iii) 代不履行責任的買方支付賣方應付的拍賣淨價金額。您承認佳士得有賣方之所有權利向您提出追討；

(vii) 在將來任何拍賣中，不允許您或您的代表作出競投，或在接受您競投之前向您收取保證金；

(viii) 在**拍賣品**所處地方之法律許可之下，佳士得就您擁有並由佳士得管有的**拍賣品**作為抵押品並以抵押品持有人身份行使最高程度之權利及補救方法，不論是以典當方式、抵押方式或任何其他形式。您則被視為已授與本公司該等抵押及本公司可保留或售賣此物品作為賣方對本公司及賣方的附屬抵押責任；和

2. 出口 / 進口

拍賣售出的任何**拍賣品**都可能受**拍賣品**售出國家的出口法律及其他國家的進口法律限制。許多國家就**拍賣品**出境要求出口聲明及 / 或就**拍賣品**入境要求進口聲明。進口國當地法律可能會禁止進口某些**拍賣品**或禁止**拍賣品**在進口國出售。

我們不會因您所購買的**拍賣品**無法出口，進口或出於任何原因遭政府機構沒收而有責任取消您的購買或向您退換**購買款項**。您應負責確認並滿足任何法律或法規對出口或進口您購買的**拍賣品**的要求

(b) **含有受保護動植物料的拍賣品**

由濒臨絕種及其他受保護野生動植物製造或組成（不論分比率）的**拍賣品**在本目錄中註有［~］號。

這些物料包括但不限於象牙、玳瑁殼、鱷魚皮、犀牛角、鯨骨、某些珊瑚品種及玫瑰木。若您有意將含有野生動物物料的任何**拍賣品**進口至其他國家，您須於競投該**拍賣品**之前了解有關海關法例和規定。有些國家完全禁止含有這類物料的物品進口，而其他國家則規定須向出口及入口國家的有關管理機構取得許可證。在有些情況下，**拍賣品**必須附有獨立的物種的科學證明和 / 或年期證明，方能裝運，而您須要自行安排上述證明並負責支付有關的費用。

如果一件**拍賣品**含有象牙或其他可能和象牙相混淆的野生動物材料（例如猛犸象牙，海象象牙和犀鳥象牙）且您計劃將上述**拍賣品**進口到美國，請查看 (c) 段中之重要信息。如果您無法出口，進口該**拍賣品**或因任何原因**拍賣品**被政府部門查收，我們沒有義務因此取消您的交易並退回您的**購買款項**。您應負責確定並滿足有關含有上述物料**拍賣品**進出口的法律和規例要求。

(c) **美國關於非洲象象牙的進口禁令**

美國禁止非洲象象牙進口美國。如果一件**拍賣品**含有象牙或其他可能和象牙相混淆的野生材料（例如猛犸象牙，海象象牙和犀鳥象牙），其必須通過受美國漁業和野生動物保護局認可的嚴格科學測試確認該物料非非洲象象牙後方可進口美國。如果我們在拍賣前對**拍賣品**已經進行了該嚴格科學測試，我們會在**拍賣品**陳述中清楚表明。我們一般無法確認相關**拍賣品**的象牙是否來自非洲象。您凡購買有關**拍賣品**並計畫將有關**拍賣品**進口美國，必須承擔風險並負責支付任何科學測試或其他報告的費用。有關測試並無定論或確定物料乃非洲象象牙，不被視為取消拍賣和退回**購買款項**的依據。

(d) **源自伊朗的拍賣品**

一些國家禁止或限制購買和 / 或進口源自伊朗的“傳統工藝作品”（身份不明確的藝術家作品及 / 或功能性作品。例如：地毯、碗、大口水壺、瓷磚和裝飾盒）。美國禁止進口以上物品亦禁止美國民眾（不論所在處）購買以上物品。有些國家，例如加拿大則允許在某特定情況下可以進口上述物品。為方便買方，佳士得在源自伊朗（波斯）的**拍賣品**下方特別注明。如您受以上制裁或貿易禁運限制，您須確保您不會競投或進口有關**拍賣品**，違反有關適用條例。

(e) **黃金**

含量低於 18k 的黃金並不是在所有國家均被視為「黃金」，並可能被拒絕入口。

(f) **鐘錶**

H2 段中的標記是佳士得為了方便閱下而在有關**拍賣品**附加的，附加標記時如有任何錯誤或遺漏，佳士得恕不承擔任何責任。

I. 佳士得之法律責任

(a) 除了**真品保證**，佳士得、佳士得代理人或僱員，對任何**拍賣品**作任何陳述，或資料的提供，均不作出任何**保證**。在法律容許的最大程度下，所有由法律附加的保證及其他條款，均被排除在本協議外。在 E1 段中的賣方保證是由賣方提供的保證，我們對這些**保證**不負有任何責任。

(b) (i) 除非我們以欺詐手段作出有欺詐成份的失實陳述或在本業務規定中另有明確說明，我們不會因任何原因對您負有任何責任（無論是因違反本協議，購買**拍賣品**或與競投相關的任何其它事項）；和

IMPORTANT NOTICES AND EXPLANATION OF CATALOGUING PRACTICE

IMPORTANT NOTICES

CHRISTIE'S INTEREST IN PROPERTY CONSIGNED FOR AUCTION

Δ: Property Owned in part or in full by Christie's
From time to time, Christie's may offer a lot which it owns in whole or in part. Such property is identified in the catalogue with the symbol Δ next to its lot number.

○ Minimum Price Guarantees:
On occasion, Christie's has a direct financial interest in the outcome of the sale of certain lots consigned for sale. This will usually be where it has guaranteed to the Seller that whatever the outcome of the auction, the Seller will receive a minimum sale price for the work. This is known as a minimum price guarantee. Where Christie's holds such financial interest we identify such lots with the symbol ○ next to the lot number.

○◆ Third Party Guarantees/Irrevocable bids
Where Christie's has provided a Minimum Price Guarantee it is at risk of making a loss, which can be significant, if the lot fails to sell. Christie's therefore sometimes chooses to share that risk with a third party. In such cases the third party agrees prior to the auction to place an irrevocable written bid on the lot. The third party is therefore committed to bidding on the lot and, even if there are no other bids, buying the lot at the level of the written bid unless there are any higher bids. In doing so, the third party takes on all or part of the risk of the lot not being sold. If the lot is not sold, the third party may incur a loss. Lots which are subject to a third party guarantee arrangement are identified in the catalogue with the symbol ○◆.

Christie's compensates the third party in exchange for accepting this risk provided that the third party is not the successful bidder. The remuneration to the third party may either be based on a fixed fee or an amount calculated against the final hammer price. The third party may also bid for the lot above the written bid. Where the third party is the successful bidder, the third party is required to pay the hammer price and the buyer's premium in full.

Third party guarantors are required by us to disclose to anyone they are advising their financial interest in any lots they are guaranteeing. However, for the avoidance of any doubt, if you are advised by or bidding through an agent on a lot identified as being subject to a third party guarantee you should always ask your agent to confirm whether or not he or she has a financial interest in relation to the lot.

Other Arrangements
Christie's may enter into other arrangements not involving bids. These include arrangements where Christie's has given the Seller an Advance on the proceeds of sale of the lot or where Christie's has shared the risk of a guarantee with a partner without the partner being required to place an irrevocable written bid or otherwise participating in the bidding on the lot. Because such arrangements are unrelated to the bidding process they are not marked with a symbol in the catalogue.

Bidding by parties with an interest
In any case where a party has a financial interest in a lot and intends to bid on it we will make a saleroom announcement to ensure that all bidders are aware of this. Such financial interests can include where beneficiaries of an Estate have reserved the right to bid on a lot consigned by the Estate or where a partner in a risk-sharing arrangement has reserved the right to bid on a lot and/or notified us of their intention to bid.

Please see http://www.christies.com/financial-interest/ for a more detailed explanation of minimum price guarantees and third party financing arrangements.

Where Christie's has an ownership or financial interest in every lot in the catalogue, Christie's will not designate each lot with a symbol, but will state its interest in the front of the catalogue.

FOR PICTURES, DRAWINGS, PRINTS AND MINIATURES, SCULPTURES, INSTALLATION, VIDEO, CALLIGRAPHY AND PAINTED CERAMIC
Terms used in this catalogue have the meanings ascribed to them below. Please note that all statements in this catalogue as to authorship are made subject to the provisions of the Conditions of Sale and **authenticity warranty**. Buyers are advised to inspect the property themselves. Written **condition** reports are usually available on request.

*This term and its definition in this Explanation of Cataloguing Practice are a qualified statement as to authorship. While the use of this term is based upon careful study and represents the opinion of specialists, Christie's and the consignor assume no risk, liability and responsibility for the authenticity of authorship of any lot in this catalogue described by this term, and the **Authenticity Warranty** shall not be available with respect to lots described using this term.

Authenticity Certificates
As certain manufacturers may not issue certificates of authenticity, Christie's has no obligation to furnish a buyer with a certificate of authenticity from the manufacturer, except where specifically noted in the catalogue. Unless Christie's is satisfied that it should cancel the sale in accordance with the **authenticity warranty**, the failure of a manufacturer to issue a certificate will not constitute grounds for cancellation of the sale.

Removal of Watch Batteries
Lots marked with the symbol ⊕ in the catalogue incorporate batteries which may be designated as "dangerous goods" under international laws and regulations governing the transport of goods by air freight. If buyers request shipment of such lots to regions outside the region in which the saleroom is located, the batteries will be removed and retained prior to shipment. If such lots are collected from the saleroom, the batteries will be made available for collection free of charge.

佳士得有時就某些受委托出售的**拍賣品**的拍賣成果持有直接的經濟利益。通常為其向賣方保證無論拍賣的結果如何，賣方將就**拍賣品**的出售獲得最低出售價。這被稱為保證最低出售價。該等**拍賣品**在目錄中於拍賣編號旁註有 º 號以資識別。

º ◆ 第三方保證 / 不可撤銷的競投

第三方需要承擔風險，在自身不是成功競投人的情況下，佳士得將給予酬金給第三方。第三方的酬金可以是固定金額或基於成交價計算的酬金。第三方亦可以就該拍賣品以超過書面競投的價格進行競投。如果第三方成功競投，第三方必須全額支付成交價及買方酬金。

我們要求第三方保證人向其客戶披露在給予保證的**拍賣品**持有的經濟利益。如果您通過顧問意見或委託代理人競投一件標示為有第三方融資的**拍賣品**，我們建議您應當要求您的代理人確認他 / 她是否在**拍賣品**持有經濟利益。

其他安排
佳士得可能訂立與競投無關的協議。這些協議包括佳士得向賣方就**拍賣品**銷售所得預付金額或者佳士得與第三方分擔保證風險，但並不要求第三方提供不可撤銷的書面競投或參與**拍賣品**的競投。因為上述協議與競投過程無關，我們不會在目錄中注以符號。

利益方的競投
如果競技人在**拍賣品**持有經濟利益並欲競投該**拍賣品**，我們將以拍賣場通知的方式知會所有競投者。該經濟利益可包括遺產受益人保留權利參與競投，遺產委托拍賣的**拍賣品**或者風險共擔安排下的合作方保留權利參與競投**拍賣品**和 / 或通知我們其競投該**拍賣品**的意願。

請登錄 http://www.christies.com/financial-interest/ 瞭解更多關於最低出售價保證以及第三方融資安排的說明。

如果佳士得在目錄中每一項**拍賣品**中均有所有權或經濟利益，佳士得將不會於每一項**拍賣品**旁附註符號，但會於正文首頁聲明其權益。
